Abstracts

UAE Doors & Windows Market is anticipated to grow at a robust growth rate in the forecast period. The main factor propelling the market growth is rising infrastructure projects in the country. UAE has been making new islands in the country as the country is eager to increase its land area, especially for tourism. UAE has been investing billions of dollars in infrastructure, giving the doors & windows market a boost. Windows and doors are basically movable barriers fixed in openings that allow access to the interior of a building or a room, a building wall, or a partition. Technology has changed the lifestyle with automation like sensors being equipped with doors and windows. These changes were mostly used in the commercial sector, but with modernization, even the residential, education, and other sectors do not lack behind.

UAE Vision 2031 changing the fortune

The United Arab Emirates has invested billions in infrastructure to boost the door and window market. Known for its tourism sector, the UAE is looking to expand its footprint in residential, commercial, and other sectors as well.

One of the main reasons for the expansion of the United Arab Emirates is the country does not want to rely on oil and gas, which has been its backbone since its inception. Vision 2031 aims to give the UAE government income from sectors other than oil & gas.

The country is also expecting to increase in FDI per year with the rapid urbanization of Dubai or Abu Dhabi and other emirates. UAE also gained an increase of 4% in its FDI in 2021 compared to 2020.

Latest Developments in UAE Doors & Windows Market

The UEA government is focused on increasing residential units in the country as the government aims to hand over 10,000 residential units by the end of 2022. Dubai plans to have 15,800 homes ready by the year 2026 for its nationals. These projects are expected to propel the UAE doors & windows market in the future.

Many hospitality projects, such as The Heart of Europe, which is a group of six islands in The World (Dubai), Atlantis, and the Royal and Wynn Resorts, are upcoming projects in the country. These projects are billions of dollars driving the growth of the doors & windows market in UAE.

UAE has a hot weather climate where the temperature rises above 50 degree Celsius with furious sandstorms. The country has started using UPVC windows and doors, which protects against harsh climate that requires little maintenance; with the temperature increasing every year due to UAE's geographic location, the market of UPVC doors & windows rising in the upcoming future.

Increasing Cost of Upcoming Models

As technology is increasing, the market is inclined towards automation, sensors, sound-proof doors, and windows. Therefore, the cost also has started increasing, which makes these models only for the premium segment population, causing a hindrance in the growth of the market.

Recent Developments

Companies such as Glassium Industries LLC are supplying UPVC windows and doors, which are protective against harsh climates such as Intense heat, sand, dust, and other elements while not affecting the performance of UPVC.

GIBCA Furniture Industries LLC manufactured an acoustically rated pivot door with a maximum standard opening width of 4000 mm. These doors are soundproof doors that are manual as well as automatic.

Market Segmentation

UAE Doors & Windows market is segmented based on Product Type, Material Type, End User, and Distribution Channel. Based on Product Type, the market is segmented into Doors & Windows. Based on Material Type, the market is segmented into Wood, Aluminum, Glass, and Others (Steel, PVC, etc.). Based on End Users, the market is segmented into Residential, Commercial, Hospitality, Office, Education, Kitchen, and Others (Healthcare, Industrial, Airports, Infrastructure, etc.).
