Abstracts

UAE hospital beds market is anticipated to register growth with an impressive CAGR in the forecast period, 2023-2027, on the account of an increasing patient burden on the country's healthcare system. The high prevalence of chronic diseases like cardiovascular diseases, kidney diseases, neurological diseases, etc. along with growing infectious diseases instances further is driving the growth of the UAE hospital beds market in the upcoming five years. Moreover, increasing investment and further development of the healthcare infrastructure are also anticipated to facilitate the growth of the UAE hospital beds market in the next five years.

Increasing Disease Burden Drives Market Growth

Chronic diseases are rapidly increasing instances in the country. The rising geriatric population in the country is further driving the growth of the UAE hospital beds market in the upcoming five years. Elder population is at high risk of having chronic diseases and thus the patient count increasing would further increase the demand for hospital beds and thus the growth of the UAE hospital beds market in the next five years. Rise in the

sedentary lifestyles and the high consumption rate of junk food material and alcohol & tobacco products increases the chances of various chronic diseases like heart diseases, cancer, etc. further enhancing the demands for hospital beds and thus the growth of the UAE hospital beds market in the future five years.

The increasing number of hospitals and similar infrastructures are also aiding the growth of the market. The total number of hospitals in the country in the year 2021 was 107 spread across the seven Emirates. Increasing investments along with the surging construction of the healthcare infrastructure further facilitate the growth of the UAE hospital beds market in the future.

Growing Medical Tourism Industry Promises Market Growth

The government is promoting medical tourism. Moreover, the excellent healthcare services along with the growing demands for advanced patient care and healthcare services are anticipated to further support the growth of the UAE hospital beds market in the next five years. The growing immigrant population in the country also aids in market growth. The government is actively devoting specialized schemes and healthcare services to the immigrating population thereby substantiating the growth of the UAE hospital beds market in the future five years.

The Medical Tourism Association (MTA) signed a memorandum with the Department of Culture and Tourism - Abu Dhabi in October 2018, which includes the opening of the medical tourism association's first office in Abu Dhabi as well as the hosting of a global healthcare congress and world medical tourism in Abu Dhabi next year. It also aims to promote Abu Dhabi as a medical tourist destination in Russia, China, and GCC, focusing on special departments including oncology, cardiology, and executive screenings.

Market Segmentation

The UAE hospital beds market is segmented by product type, type, care, application, end user, competitional landscape, and regional distribution. Based on product type, the market is further segmented into general beds, bariatric beds, pediatric beds, pressure relief beds, birthing beds, and others. By type, the market is differentiated between powered and manual. Based on care, the market is fragmented into curative care, longterm care, and rehabilitative care. By application, the market is divided between intensive care beds and non-intensive care beds. Based on end users, the market is bifurcated into hospitals & clinics, ambulatory care centers, and others. The market

analysis also studies the regional segmentation to devise regional market segmentation, divided among Abu Dhabi, Dubai, Sharjah, and the rest of UAE.
