Abstracts

UAE surgical scrubs market is anticipated to register growth with an impressive CAGR in the forecast period, 2023-2027, on the account of a rising number of surgeries in the country. Growing instances of chronic diseases like cancer, cardiovascular diseases, neurological disorders, etc. that often require surgical treatments drive the growth of the UAE surgical scrubs market in the upcoming five years. Moreover, the increasing number of expert surgeons and their expertise in multiple surgeries along with the stringent regulations of the operation theaters also support the growth of the UAE surgical scrubs market in the next five years. Rising awareness about the germs & infections caused due to sanitization issues during surgeries also aids the growth of the UAE surgical scrubs market in the future five years.

Scrubs are sanitized clothing usually worn by the healthcare workers like doctors, physicians, nurses, etc. The scrubs were used strictly during the surgeries, but in recent times they are also used outside the surgeries and worn by the healthcare workers taking care of patients regularly. Surgical scrubs are specifically utilized for surgeries. It is important to maintain the hygiene of the surgical scrub to avoid any kind of contamination. Protocols are followed to sanitize the attire and environment before the surgeries are conducted.

Expanding Healthcare Infrastructure Promises Market Growth

The growth of the healthcare industry ensures the tentative growth of the demand for medical devices, pharmaceuticals, therapeutic products, techniques, consumer healthcare products, protection gears, etc. Healthcare infrastructure is a major sector that ensures the growth of healthcare services while providing proper facilities for patient care and flourishes the industry growth in return. An increasing number of hospitals, clinics, ambulatory surgical centers, and other similar healthcare centers in the country drive the demand for surgical scrubs, thereby driving the growth of the UAE surgical scrubs market in the upcoming five years.

In the United Arab Emirates, the total number of hospitals is 107 throughout the seven Emirates. In Abu Dhabi, there are 39 hospitals out of which 14 are government and 25 are private. with 4,226 beds, or 2.7 beds for every 1500 of the population, servicing approximately 2.5 million people. In Dubai, there are 38 hospitals (6 government, 32 private) with 3,857 beds, or 1 bed for every 532 of the population, servicing approximately 2.1 million. Sharjah has 15 hospitals (5 government, 10 private), with 898 beds, or 1 bed for every 1,670 of the population, servicing approximately 1.5 million people. The rest of the country altogether has 15 hospitals (10 government, 5 private), with 1274 beds, servicing approximately 840 thousand people in the Emirates.

Market Segmentation

The UAE surgical scrubs market is segmented by type, distribution channel, end-user, competition landscape, and regional distribution. Based on type, the market is differentiated between reusable and disposable. By distribution channel, the market is fragmented into direct sales, distributors/suppliers, and online. Based on end users, the market is bifurcated into hospitals, cardiac care centers, and ambulatory surgical centers. The market analysis also studies the regional segmentation to devise regional market segmentation, divided among Abu Dhabi, Dubai, Sharjah, rest of UAE.
