Abstracts

The United States gas ranges market size is expected to register an impressive CAGR during the forecast period. For simple roasting and cooking requirements, gas ranges are used as standard equipment. In addition to one convection oven and one standard oven, gas ranges allow the addition of accessories like broilers or griddles for the stovetop. Gas ranges are an essential piece of equipment for the cooking process in the food processing and restaurant industries. The consumer's requirements decide the way gas burners are often used.

The residential customer prefers gas rangers with fewer burners, whereas the industries prefer gas ranges with the most burners. The most often used equipment in the food processing and restaurant sectors is gas ranges with an oven.

The US market for gas ranges is expanding as a result of the rising number of food and beverage producers. Gas ranges with ovens or broilers are frequently used in the food processing sectors to quickly cook huge quantities of food. These elements are driving up demand for gas ranges in the United States.

While the need for gas burners with convection ovens and stoves has also been fueled by the food industry, hospitality, and residential sectors. The goal of gas range

manufacturers is to create high-quality items using the newest technology, designs, and appliances. The demand for gas ranges in the US market is anticipated to be driven by these factors.

The growth of the gas ranges market in the US is expected to be fueled by the rising number of food service establishments and the caf? culture there. Additionally, the country's demand for gas ranges is rising as a result of rising disposable income and consumer passion for cooking.

The market for gas ranges is anticipated to benefit from the growing economy and population in the United States. Additionally, the number of food and beverage producers as well as food service establishments, is growing in the United States, which is opening up a lot of potential for the major players in the gas ranges industry.

Companies Expanding Their Presence Fuels Market Growth

To maintain their competitive edge in the market, major companies have been using a variety of expansion methods and the introduction of new products. A growing number of industry participants are concentrating on the development of cutting-edge items. For instance, in Tulsa, Oklahoma, Whirlpool Corporation unveiled the state-of-the-art Factory Distribution Center (FDC) that is situated next to its current production facility. The current facility manufactures slide-in and freestanding ranges for the Whirlpool, Amana, Maytag, KitchenAid, and JennAir brands.

Innovative Offering Fuels Market Growth

US manufacturers are producing innovative products to attract consumers, which drives the gas ranges market in the United States. For instance, LG launched the smart wi-fi enabled true convection instaview gas range with air fry and smart instaview gas double oven slide-in range with ProBake convection, air fry, and air sous vide. The controls are positioned up front in the slide-in designs for a chic, built-in look that enables the beauty of both backsplash and countertops to shine through. The largest oven in its class, according to LG, has a capacity of 6.9 cubic feet, and one can use as many pots, pans, Dutch ovens, and skillets as necessary. This oven has enough space for baking huge quantities of cookies or a roast for the holidays. Therefore, innovative offerings in products by manufacturers drive the market for gas ranges in the United States.

Market Segmentation

United States gas ranges market is segmented into type, end-use, distribution channel, region, and company. Based on type, the market is further divided into freestanding and built-in. Based on end-use, the market is segmented into residential and commercial. Based on distribution channels, the market is further split into supermarkets/hypermarkets, multi-branded stores, exclusive stores, contract sales, and online.

Market Players

Electrolux Home Products, Inc., Haier U.S. Appliance Solutions, Inc., Samsung Electronics America, Inc., Whirlpool Corporation, LG Electronics U.S.A. Inc., Felix Storch, Inc. (Summit Appliance), Miele, Inc., SMEG U.S.A. Inc., Prizer-Painter Stove Works, Inc., and BSH Home Appliances Corporation are the major market players in the United States gas ranges market.

Report Scope:

In this report, United States gas ranges market has been segmented into the following categories, in addition to the industry trends, which have also been detailed below:

United States Gas Ranges Market, By Type:

Freestanding

Built In

United States Gas Ranges Market, By End-Use:

Residential

Commercial

United States Gas Ranges Market, By Distribution Channel:

Supermarkets/Hypermarkets

Multi-branded Stores

Exclusive Stores

Contract Sales

Online

United States Gas Ranges Market, By Region:

South

West

Mid-West

North-East

Competitive Landscape

Company Profiles: Detailed analysis of the major companies present in United States gas ranges market.

Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

Company Information

Detailed analysis and profiling of additional market players (up to five).

Contents

1.PRODUCT OVERVIEW
