## **Abstracts**

According to “United States Kitchen Filters Market By Filter Category, By Filter Type, Competition Forecast & Opportunities, 2013 – 2023”, kitchen filters market is projected to grow at a CAGR of 7% by 2023 in the US, predominantly on account of increasing consumer concerns regarding the settlement of airborne grease in kitchens. Rising private residential construction spending, increasing adoption of UV light technology in hoods for new buildings and refurbishments, and construction of new high-end commercial buildings would drive the market for kitchen filters in the United States over the coming years. Further, increasing preference for baffle filter type due to its efficient role in reduction of risk of fire in kitchens is anticipated to positively influence the United States kitchen filters market during the forecast period. Some of the major players operating in the United States kitchen filters market are Broan-NuTone LLC, Jenn-Air (Whirlpool Corporation), Kitchen Aid (Whirlpool Corporation), Vent-A-Hood Company, Frigidaire (Electrolux), Zephyr Ventilation, LLC, Viking Range, LLC, Elica S.p.A, FABER USA and CANADA, Thermador Corporation, etc. “United States Kitchen Filters Market By Filter Category, By Filter Type, Competition Forecast & Opportunities, 2013 – 2023”, discusses the following aspects of kitchen filters in the US market:
