Abstracts

The United States Methanol market demand stood at 8559.78 Thousand Tonnes in 2020 and is forecast to reach 12894.14 Thousand Tonnes by 2030, growing at a healthy CAGR of 3.56% until 2030. Demand for Methanol in the United States is likely to grow commendably in the forecast period backed by its versatile usage across various end-use industries like chemical and petrochemicals, automotive, construction, paints and coatings, etc. As Methanol is an easily biodegradable compound it is being considered as a supreme eco-friendly alternative for several crude derivatives in the chemical and petrochemical industry. The increasing stress of the government over adopting safe and low carbon emission initiatives is likely to contribute well to propel the growth of Methanol in the forecast period. Due to the outbreak of COVID-19, the economy was hit and the Methanol market growth faced a setback. Major end-user industries were temporarily shut down and the research and development activities were halted for the pandemic period. Disruption in the supply chain was observed which affected the distribution channels adversely. However, post COVID-19 period the market is expected to eventually pick up the pace.

Under this subscription, you would be able to access United States Methanol market demand and supply analysis on a cloud-based platform for one year. The data is updated on a near real-time basis to add any new movement in the industry including but not limited to new plant announcements, plant shutdowns, temporary disruptions in demand or supply, news and deals, and much more specific to Methanol.

Years Considered for Analysis:

Historical Years: 2015 – 2018

Base Year: 2019

Estimated Year: 2020

Forecast Period: 2021 – 2030

Deliverables

Installed Capacity By Company: Installed capacity within the country along with the individual capacity of leading players

Installed Capacity By Location: Installed capacity at several locations across the country

Installed Capacity By Process: Installed capacity by different processes

Installed Capacity By Technology: Installed capacity by different technologies being used to produce Methanol

Production By Company: Actual production done by different companies

Operating Efficiency By Company: Operating efficiency at which different companies are operating their plants

Demand By End Use: Demand/Sale of Methanol in different end user industries across the country

Demand By Sales Channel: Demand/Sale of Methanol by different sales channels across the country

Demand By Region: Demand/Sale of Methanol in different regions of the country

Country-Wise Exports: Exports of Methanol by Different Countries

Country-Wise Imports: Imports of Methanol by Different Countries

Demand & Supply Gap: Demand & Supply Gap at country level

Market Share of Leading Players: Revenue shares of leading players in the country

News & Deals: Historical & Current News & Deals in the Methanol market

To extract data for the United States Methanol market, the ChemAnalyst team conducts primary research surveys with Methanol manufacturers, suppliers, distributors, wholesalers, and customers followed by exhaustive secondary research to cross-validate the information being collected through primary research surveys.
