## **Abstracts**

According to “United States Portable Generators Market By Fuel Type, By End-User, By Power Rating, By Application, Competition, Forecast & Opportunities, 2014 – 2024” portable generators market stood at \$ 557 million in 2018 and is projected to reach \$ 819 million by 2024. Government initiatives for economic development such as reduction in corporate tax and different power grid projects are expected to boost the country’s portable generators market. Reduction in corporate tax is expected to attract more private entities to set up their manufacturing facilities in the country. Moreover, technological advancements such as automatic shutdown and wireless Bluetooth in portable generators are anticipated to further strengthen portable generators market in the United States during forecast period. Some of the major players operating in United States portable generators market are Honda Motors Co., Ltd., Generac Holdings Inc., Briggs & Stratton Corporation, Yamaha Motor Co., Ltd., Caterpillar Inc., Kubota Corporation, Atlas Copco AB, Wacker Neuson Group, Kohler Co. and Champion Power Equipment. to “United States Portable Generators Market By Fuel Type, By End-User, By Power Rating, By Application, Competition, Forecast & Opportunities, 2014 – 2024” discusses the following aspects of Portable Generators market in United States:

Portable Generators Market Size, Share & Forecast

Segmental Analysis – By Fuel Type (Diesel Gasoline and Natural Gas & LPG), By End-User (Commercial, Industrial and Residential), By Power Rating, By Application, Competition

Competitive Analysis

Changing Market Trends & Emerging Opportunities

### Why You Should Buy This Report?

To gain an in-depth understanding of Portable Generators in United States

To identify the on-going trends and anticipated growth in the next five years

To help industry consultants, Portable Generators distributors and other stakeholders align their market-centric strategies

To obtain research-based business decisions and add weight to presentations and marketing material

To gain competitive knowledge of leading market players

To avail 10% customization in the report without any extra charges and get the research data or trends added in the report as per the buyer's specific needs

### Report Methodology

The information contained in this report is based upon both primary and secondary research. Primary research included interaction with Portable Generators distributors and industry experts. Secondary research included an exhaustive search of relevant publications like company annual reports, financial reports and proprietary databases.

## Contents

### 1. PRODUCT OVERVIEW

### 2. RESEARCH METHODOLOGY

### 3. ANALYST VIEW

### 4. VOICE OF CUSTOMER
