## **Abstracts**

Vietnam CT scanners market is bound to experience impressive growth with anticipated CAGR in the forecast period, 2023-2027, on the account of increasing investments in the medical device development along with the expanding diagnostic imaging demands. Surge in the demand for early diagnosis and effective treatment is anticipated to drive the growth of the Vietnam CT scanners market in the upcoming five years.

Computed tomography (CT) scanners are actively utilized in the lines of radiology to identify and diagnose patient's symptoms and generate images in a non-invasive way. Experts known as radiographers are skilled to perform CT scans on the patients and radiologists, and doctors read through the scans to understand the underlying cause of the disease. CT scanners are the diagnostic imaging medical devices that produce X-ray generated images of the patient. The series of images taken from various angles utilizes a computerized process to create cross-section images known as slices of soft tissues, blood-vessels, and bones. The images taken from different angles confirm better result and better images simple X-ray image thus diagnosis is efficient.

Increasing Instances Of Chronic Diseases Drive Market Growth

Increasing instances of chronic diseases like cardiovascular diseases, cancer,

neurological diseases etc. are expected to drive the growth of the Vietnam CT scanners market in the upcoming five years. Early diagnosis for the chronic diseases like cardiovascular diseases, cancerous diseases, also drives the growth of the Vietnam CT scanners market in the next five years. The chronic diseases identified at the later stage worsens the condition of the patient and recovery becomes difficult and near to impossible, thus early diagnosis is beneficial for such conditions.

Increasing cases of chronic diseases have created major concerns among the population regarding early diagnosis. Now, not only on the doctor's recommendations, but through self-modulated regular checkups involving diagnostic tests and scans have increased the demand for the CT scanners in the country. Health conscious population actively invest in these health checkups and even government holds regular drives to motivate the population thereby substantiating the growth of the Vietnam CT scanners market in the future five years.

### Expanding Healthcare Sector

Rapid growth in the investments, and governmental schemes have led to the expansion of healthcare sector thus aiding the growth of the Vietnam CT scanners market. Increasing investment toward healthcare infrastructure is also an important factor playing major role in growth of the Vietnam CT scanners market in the next five years. Through government provisions, total number of public hospital in the country were 1260 in the year 2020 that grew from 1008 count in 2010. Moreover, the private hospitals have also been growing recently. From only 121 private hospitals in 2010, the country has 568 private hospitals in 2020, and the count is still increasing. Recent pandemic situation further aided toward the concerns for public healthcare and number of hospitals and medical centers are bound to increase thus indirectly supporting the growth of the Vietnam CT scanners market in the future five years.

### Market Segmentation

The Vietnam CT scanners market segmentation is based on slice, modality, device architecture, application, end users, competition landscape, and regional distribution. Based on slice, the market is segmented into 8-slice, 16-slice, 32-slice, 64-slice, 128-slice & above. On the basis of modality, the market is further bifurcated into fixed and mobile. Device architecture segment is differentiated between O-arm and C-arm. Based on application, the market is also fragmented into cardiology, oncology, neurology, and others. On the basis of end user, market is defined into hospitals, diagnostic centers, and others. The market analysis also studies the regional

segmentation to devise regional market segmentation, divided among Northern region, Central region, Southern region.

### Company Profile

GE Healthcare, Philips Healthcare Vietnam, Siemens Healthineers Vietnam, Neusoft Medical Systems Vietnam, Canon Medical Systems Vietnam, among others is a partial list of major market players of the companies responsible for the growth of Vietnam CT scanners market.

### Report Scope:

In this report, Vietnam CT scanners market has been segmented into following categories, in addition to the industry trends which have also been detailed below:

#### Vietnam CT Scanners Market, By Slice:

8-slice

16-slice

32-slice

64-slice

128-slice & above

#### Vietnam CT Scanners Market, By Modality:

Fixed

Mobile

#### Vietnam CT Scanners Market, By Device Architecture:

O-Arm

C-Arm

### Vietnam CT Scanners Market, By Application:

Cardiology

Oncology

Neurology

Others

### Vietnam CT Scanners Market, By End User:

Hospitals

Diagnostic Centers

Others

### Vietnam CT Scanners Market, By Region:

Northern Region

Central Region

Southern Region

### Competitive Landscape

**Company Profiles:** Detailed analysis of the major companies present in Vietnam CT scanners market.

### Available Customizations:

With the given market data, TechSci Research offers customizations according to a company's specific needs. The following customization options are available for the report:

### Company Information

*Vietnam CT Scanners Market, By Slice (8-slice, 16-slice, 32-slice, 64-slice, 128-slice & above), By Modality (...)*

Detailed analysis and profiling of additional market players (up to five).
