Abstracts

Entering into its 7th successive production year, and having sold more than 1500+ copies so far, we're proud to introduce the latest addition to our existing family of directories: Worldwide-MVNO-Directory 2015 (aka MVNOD 2015). The MVNOD 2015 has been designed to help those who work directly or indirectly with MVNOs, and need a more sophisticated & disciplinary approach of doing business or networking with them..

Worldwide Mobile Network Operators Directory 2011-2012

MNOs have finally come to understand the benefits of working with MVNOs. Everywhere, leading operators are now contemplating options to set foothold in foreign unserved and/ or under-served markets for new business avenues. This also holds true where financial, regulatory hurdles at times do not permit consolidations over conventional M&A practices. While MVNOs would continue growing in Europe and the US, there would be increasing opportunities in Asia Pacific, Latin America and other emerging markets.

The Directory, with its detailed and relevant information on MVNOs, would considerably reduce the research and decision-making time of key executives, and lead to developing potentially improved business partnerships between MNOs & MVNOs.

Besides the conventional PDF-only format we are also offering the excel format for easily sifting information as per individual requirements.

Following Regions have been covered in this Directory:

Africa

Asia Pacific (Including Australia and New Zealand)

Europe

Latin America (Including the Caribbean/ West Indies)

Middle East

North America

The Directory offers following information:

Name of the Operator [Continent & Country Wise]
