

# **Dornbirn 2013—developments and opportunities in man-made fibres**

<https://marketpublishers.com/r/D7B61078527EN.html>

Date: March 2014

Pages: 23

Price: US\$ 520.00 (Single User License)

ID: D7B61078527EN

## **Abstracts**

The Dornbirn Man-Made Fibers Congress remains an essential platform for the exchange of ideas. The event has become more international in recent years and at the September 2013 event there were visitors from 30 countries. As many as 104 presentations were given, which emphasised the commitment of fibre manufacturers to developing new products and processes for a range of technical end uses and markets. This report reviews and analyses several papers presented at the congress on key topics -- including the global man-made fibre market, and advances and opportunities in man-made fibres in Europe, Japan and South Korea. It also reviews some of the latest developments in cellulosic fibres, biopolymers, polyester and smart fibres from a number of companies, including Advansa, Asahi Kasei, Cordenka, DuPont, Fitesa, Glanzstoff Industries, Huvis Corporation, Ingeo, ITV Denkendorf, Kaneka Corporation, Kelheim Fibres, Lenzing, Rennovia, RWTH Aachen University, Toyobo and Utrecht University.

## Contents

### SUMMARY

### INTRODUCTION

### GLOBAL MAN-MADE FIBRE MARKET

### ADVANCES AND OPPORTUNITIES IN MAN-MADE FIBRES IN

#### EUROPE

Horizon 2020

Cordenka: EcoEndurance

Glanzstoff Industries: filament yarns

Kelheim Fibres: ionic activation of viscose fibres

Kelheim Fibres: speciality viscose fibres for filtration applications

Kelheim Fibres and Tailorlux: fibres with fingerprints

Lenzing: microfibrillated fibres

Utrecht University: advantages in the spun-dyeing of high performance cellulosic yarns

### ADVANCES AND OPPORTUNITIES IN MAN-MADE FIBRES IN

#### JAPAN

Toyobo: Breathair

Asahi Kasei: method for the direct spinning of ultra-fine polyester fibres

Asahi Kasei: polyketone nanoporous membranes

Kaneka Corporation: Kanecaron

### ADVANCES AND OPPORTUNITIES IN MAN-MADE FIBRES IN

#### SOUTH KOREA

Huvis Corporation

### BIOPOLYMERS UPDATE

DuPont: Sorona

NatureWorks: Ingeo

Fitesa: bio-based bicomponent fibre

Rennovia: bio-based polyamide

Advansa and BASF: biodegradable staple fibres

## **SMART FIBRES**

RWTH Aachen University: extrusion technology for the melt spinning of polymer optical fibres (POFS)

RWTH Aachen University: carbon parquet

ITV Denkendorf: transport pallet

## I would like to order

Product name: Dornbirn 2013—developments and opportunities in man-made fibres

Product link: <https://marketpublishers.com/r/D7B61078527EN.html>

Price: US\$ 520.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
