Abstracts

This report includes statistical data, insight and analyses of mill consumption of textile fibres as well as man-made fibre production and trade covering the period 2006-11. This report includes statistical data and analysis of global trends in man-made fibre production by country and geographical region. In addition to the overall statistics, the data are broken down into several types of synthetic and cellulosic fibres. The report also includes detailed forecasts -- by fibre type, country and region -- of man-made fibre capacities and mill fibre consumption.
