Abstracts

This edition in our flagship series of reports contains statistical data, information and insight on global textile and clothing trade. The report identifies key trends and includes information on: textile trade flows, clothing trade flows, intra-Asian textile and clothing trade, and textile and clothing deficits and surpluses. It also analyses the trade activities of the world's leading textile and clothing exporting and importing countries and regions. The report presents a wealth of information and is essential for anyone involved in buying or sourcing textiles and clothing.

Contents
