Abstracts

The Board Management Software market was valued at US\$ 3.33 billion in 2023 and is expected to reach US\$ 6.44 billion by 2031; it is estimated to record a CAGR of 8.6% from 2023 to 2031.

The board management software market encompasses a wide range of board management software providers, deployment platforms, and end users, each playing a crucial role in promoting innovation and adoption in this rapidly evolving space. As depicted in the figure above, there are various stakeholders in the board management software market ecosystem. Software providers are crucial stakeholders in the ecosystem of the board management software market. The most prominent software providers of board management software are Diligent Corporation, Passageways, Aprio Boardroom, BoardBookit, Azeus Convene, and Nasdaq. The demand for board management software solutions is high owing to the adoption of AI and the increasing number of product launches. The rising adoption of board management software in small businesses and the emergence of cloud-based solutions are further complementing the growth of the global board management software market. Deployment platform providers offer cloud-based, on-premises platforms. The system integrators were engaged in integrating board management software with the businesses as per the specific requirements of the end users. The major end users of the board management software market are the BFSI, education, healthcare, and

government sectors, among others.

Cloud deployment is necessary for organizations with growing data demand to digitally access extremely responsive applications and services, as well as for customized experiences. Cloud computing has become one of the most prominent trends in the field of digital operation. Cloud solution streamlines the deployment and reduces the cost of deployment. It links a specific amount of storage, computing, and software resources to make a large-scale shared virtual IT resource pool, thereby providing efficient IT services for remote computer users. Owing to these benefits, end users of board management software are increasingly adopting cloud-based solutions. The cloud segment is growing considerably due to its advantages, scalability, and cost-effectiveness. Additionally, the increase in internet penetration across the globe is another factor contributing to the demand for cloud-based board management software.

By deployment, the market is segmented into cloud-based and on-premise. The cloud-based segment held substantial Board Management Software market share in 2023. By end-user the market is segmented into corporate, education, healthcare, government, and others. The corporate segment held major Board Management Software market share in 2023. Further, the geographic scope of the Board Management Software market report focuses covers North America (the US, Canada, and Mexico), Europe (Spain, the UK, Germany, France, Italy, and the Rest of Europe), Asia Pacific (South Korea, China, India, Japan, Australia, and the Rest of Asia Pacific), Middle East & Africa (South Africa, Saudi Arabia, the UAE, and the Rest of Middle East & Africa), and South & Central America (Brazil, Argentina, and the Rest of South & Central America).

Aprio Inc, Azeus Convene, Boardable Board Management Software Inc, BoardPAC Inc, BoardPac LLC, Diligent Corporation, Nasdaq Inc, Passageways Inc, Govenda, and Admincontrol are among the prominent players profiled in the Board Management Software market report.
