Abstracts

The Europe fish vaccines market was valued at US\$ 110.00 million in 2022 and is expected to reach US\$ 191.33 million by 2030; it is estimated to grow at a CAGR of 7.2% from 2022 to 2030.

Surging Demand for Aquatic Animal-Derived Food Products Fuel the Europe Fish Vaccines Market

An unhealthy diet is a growing concern in developing and developed countries, resulting in a variety of negative health consequences. Thus, fish is highly advisable in diet for healthy growth and development as it is rich in vitamins, minerals, lipids, and macronutrients such as proteins. Additionally, it is believed that aquaculture is the most effective way to produce high-quality proteins for a sustainable human diet. Growing awareness regarding the nutritional benefits of fish consumption propels the demand for sustainable, high-quality, and healthy meat products. Therefore, the rising consumption of fish and fish-derived products fuels the fish vaccines market growth.

Europe Fish Vaccines Market Overview

The European fish vaccines market is segmented into Germany, the UK, France, Italy, Spain, and the Rest of Europe. The region holds a significant market share in the fish vaccines market. The European fish vaccines market is expected to witness significant

growth during the forecast period due to factors such as the significant growth in aquaculture industry, surging demand for aquatic animal-derived food products, growing research and development activities for fish vaccines development by market players in the region. Aquaculture is one of the key food-production sectors in the UK. According to the Department of Business and Trade (UK), seafood purchase is estimated to be ~US\$ 5.14 billion in Great Britain. According to Innovate UK, the production value of the aquaculture industry in the UK is ~US\$ 730.88 annually. Various events are organized by regulatory authorities to increase the awareness regarding the importance of maintaining aquaculture and fisheries. In May 2023, the UK's largest trade show- Aquaculture UK-for the community of aquaculture was held in Aviemore, Scotland. This trade show focused on innovation and sustainability in fish health, cleaner fish breeding, genetic selection, and other topics.
