## **Abstracts**

The Europe manhole covers market is expected to grow from US\$ 1,750.06 million in 2022 to US\$ 2,283.17 million by 2028. It is estimated to grow at a CAGR of 4.5% from 2022 to 2028.

### **Rapid Growth of Construction & Infrastructure Sectors Fuels Europe Manhole Covers Market**

The demand for manhole covers has been increasing due to the rise in construction activities, a surge in population, and the real estate industry growth. To cover the drainage line, manhole covers are required. Modern buildings must be equipped with an efficient drainage system. It helps the concerned authorities access the storm sewers and provide sanitary maintenance in a hassle-free way by making it easy for them to fix blockages. These manhole covers are important for conducting surveys of the utility pits and underground utilities, equipment maintenance, and operatives to enter the system itself. The application of manhole covers includes drainage systems as well as temporary water storage.

Moreover, the increasing government initiatives to strengthen the infrastructure in various countries is driving the manhole covers market. In addition, rapid road construction across the globe has increased the demand for manhole covers of various materials and shapes. The rising awareness regarding environmental protection among the investors is fueling the need for composite material-based manhole covers in building and construction of drainage systems. Increasing government expenditure and

rising investment are improving domestic infrastructure and sustaining the economic growth of manhole covers in the construction industry, especially in developing countries.

Thus, the rapid growth of the construction & infrastructure sectors is driving the Europe manhole covers market .
