Abstracts

The Middle East & Africa cone beam computed tomography market was valued at US\$ 57.00 million in 2022 and is expected to reach US\$ 99.11 million by 2028; it is estimated to register a CAGR of 9.7% from 2022 to 2028.

Technological Advancements and R&D Fuel Middle East & Africa Cone Beam Computed Tomography Market During Forecast Period

Technological advancements, particularly in digital imaging systems, have improved diagnostic and surgical procedures by ensuring the availability of detailed information to healthcare providers while reducing patients' exposure to radiation. With CBCT techniques, dentists have gained the ability to collect more data with lower doses of radiation. Earlier, physicians relied on two-dimensional imaging for diagnosis and treatment planning. However, 2D technology often requires multiple exposures. Therefore, 3D scanning has gained greater popularity in diagnostics. A few of the advancements related to the CBCT market are mentioned below: In March 2019, Planmeca Oy introduced an advanced Planmeca Viso G5 into their Planmeca Viso family, which offers high CBCT image quality. In December 2021, Ray Station 11B had introduced new features for adaptive workflows, brachytherapy, and radiation therapy with ions. An improved dose calculation accuracy on daily images for photon therapy is

a significant feature of Ray Station 11B. Daily CBCTs provide a better representation of the patient's anatomy at the time of treatment than any conventional CT, which is taken early in the process and used to plan the complete treatment. In April 2022, Carestream Dental launched the Neo Edition of CS 8200 3D Family, which made the CBCT scanning heavily intuitive. The Neo Edition is an evolved version of the CS 8200 3D, equipped with an optional Scan Ceph module that improves ease of use, contributes to a better clinical experience, and leads to more successful outcomes. Practitioners that are already using the CS 8200 3D can easily upgrade to the new Neo Edition. In June 2022, Xoran Technologies received a patent for a modular cone beam computed tomography system assembly.

Thus, such technological advancements by various market players are likely to bring new trends to the Middle East & Africa cone beam computed tomography market in the coming years.

Middle East & Africa Cone Beam Computed Tomography Market Overview

The Middle East & Africa cone beam computed tomography market is segmented into Saudi Arabia, South Africa, the UAE, and the Rest of Middle East & Africa. Countries such as the UAE and South Arabia are expected to be the largest contributors to the CBCT market due to rising dental abnormalities such as orthodontics, endodontics, and periodontics. Also, increasing dental expenditure is likely to contribute to the market growth in the Middle East & Africa.

Middle East & Africa Cone Beam Computed Tomography Market Revenue and Forecast to 2028 (US\$ Million)

Middle East & Africa Cone Beam Computed Tomography Market Segmentation

The Middle East & Africa cone beam computed tomography market is segmented into patient positioning, application, end user, and country.

Based on Patient Positioning, the Middle East & Africa cone beam computed tomography market is segmented into standing, sitting, and supine. The standing segment held the largest share of the Middle East & Africa cone beam computed tomography market in 2022.

Based on application, the Middle East & Africa cone beam computed tomography market is segmented into dental, ent, breast cancer, skull base, orthopedic and others.

The dental segment held the largest share of the Middle East & Africa cone beam computed tomography market in 2022.

Based on end user, the Middle East & Africa cone beam computed tomography market is segmented into hospitals & clinics, diagnostic centers, and others. The hospitals & clinics segment held the largest share of the Middle East & Africa cone beam computed tomography market in 2022.

Based on country, the Middle East & Africa cone beam computed tomography market is segmented into Saudi Arabia, South Africa, the UAE, and the Rest of Middle East & Africa. Saudi Arabia dominated the share of the Middle East & Africa cone beam computed tomography market in 2022.

Dentsply Sirona Inc; Carestream Dental LLC.; Fussen Group; PreXion; Brainlab AG; IDETEC MEDICAL IMAGING; Vatech Co., Ltd.; Planmeca Oy; and Canon Medical Systems are the leading companies operating in the Middle East & Africa cone beam computed tomography market.
