Abstracts

The South & Central America spend analytics for electronics and semiconductor market was valued at US\$ 12.32 million in 2022 and is expected to reach US\$ 30.08 million by 2030; it is estimated to register a CAGR of 11.8% from 2022 to 2030.

Rise in Supply Chain Disruption Fuels South & Central America Spend Analytics for Electronics and Semiconductor Market.

Supply chain disruptions can result in changes in supplier availability, pricing, and lead time. In June 2023, the CEO of Macronix, prominent semiconductor manufacturer in Taiwan stated that a military conflict involving the country would have severe repercussions on the global economy. The disruption caused to the supply chain of critical semiconductors is expected to be extremely significant, and it might set the global economy back by several decades. By utilizing spend analytics, companies can analyze spending patterns and identify alternative suppliers or cost-saving

opportunities. This allows them to adapt to modifying market conditions and optimize their procurement strategies. Spend analytics can help companies assess vulnerabilities in their supply chains and identify areas that require improvement. By analyzing spending data, companies can identify potential bottlenecks, single-source dependencies, or areas prone to disruptions. This allows them to proactively deliver these issues and build a more resilient supply chain. Spend analytics provides insights into supplier performance, financial stability, and risk exposure. By monitoring and analyzing spending data, companies can identify high-risk suppliers and take appropriate measures to mitigate potential disruptions. This includes diversifying the supplier base, establishing backup suppliers, or implementing contingency plans to minimize the impact of future disruptions. Supply chain disruptions can lead to fluctuations in demand and supply. Companies can optimize inventory management strategies by analyzing spending data and demand patterns. This includes identifying slow-moving or excess inventory, adjusting reorder points, and implementing just-in-time inventory practices. These measures help companies reduce carrying costs and improve overall supply chain efficiency. Thus, the rise in supply chain disruptions is anticipated to create opportunities for the spend analytics for electronics and semiconductor market growth during the forecast period.

South & Central America Spend Analytics for Electronics and Semiconductor Market Overview

The consumer electronics industry heavily relies on complex global supply chains. Spend analytics solutions can provide companies in this industry with enhanced visibility into their supply chains, enabling them to track and monitor supplier performance, identify bottlenecks, and mitigate risks. This visibility helps ensure a reliable supply of electronic components and products, optimize inventory management, and improve overall supply chain efficiency. By analyzing spending data, companies can know more about their buying patterns, supplier performance, and product quality, enabling them to make data-driven decisions. This data-driven approach can help identify opportunities for cost savings and improve supplier relationships, in turn, enhancing the overall effectiveness of products.

It is important for companies in the consumer electronics industry to effectively monitor risk, implement mitigation strategies, and establish business continuity plans within their supply chain operations. This is particularly crucial given the perishability of certain products, the short product life cycles, and the need to adapt to unpredictable consumer demand. By leveraging spend analytics, companies can comprehensively understand their supply chain ecosystem, identify vulnerabilities, and take proactive measures to

ensure resilience and competitiveness.

South & Central America Spend Analytics for Electronics and Semiconductor Market Revenue and Forecast to 2030 (US\$ Million)

South & Central America Spend Analytics for Electronics and Semiconductor Market Segmentation

The South & Central America spend analytics for electronics and semiconductor market is segmented based on component, type, deployment, application, and country. Based on component, the South & Central America spend analytics for electronics and semiconductor market is bifurcated into software and services. The software services held a larger market share in 2022.

Based on type, the South & Central America spend analytics for electronics and semiconductor market is segmented into descriptive analytics, predictive analytics, and prescriptive analytics. The predictive analytics held the largest market share in 2022.

Based on deployment, the South & Central America spend analytics for electronics and semiconductor market is bifurcated into on-premise and cloud. The cloud held a larger market share in 2022.

Based on application, the South & Central America spend analytics for electronics and semiconductor market is segmented into financial management, risk management, governance & compliance management, supplier sourcing & performance management, demand & supply forecasting, and others. The supplier sourcing & performance management held the largest market share in 2022.

Based on country, the South & Central America spend analytics for electronics and semiconductor market is segmented into Brazil, Argentina, and the Rest of South & Central America. Brazil dominated the South & Central America spend analytics for electronics and semiconductor market share in 2022.

Coupa Software Inc, International Business Machines Corp, NB Ventures Inc, SAP SE, Ivalua Inc, and Synertrade Inc are some of the leading companies operating in the South & Central America spend analytics for electronics and semiconductor market.

- 4.1 Overview
- 4.2 Ecosystem Analysis

5. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET - KEY MARKET DYNAMICS

- 5.1 Market Drivers
 - 5.1.1 Rise in Demand for Consumer Electronics
 - 5.1.2 Fluctuations in Raw Materials Prices
- 5.2 Market Restraints
 - 5.2.1 Technological Complexity
- 5.3 Market Opportunities
 - 5.3.1 Rise in Supply Chain Disruption
 - 5.3.2 Incorporation of Miniaturized Electronic Devices
- 5.4 Future Trends
 - 5.4.1 Growing Implementation of AI-based Spend Analytics
- 5.5 Impact of Drivers and Restraints:

6. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET -MARKET ANALYSIS

6.1 Spend Analytics for Electronics and Semiconductor Market Revenue (US\$ Million), 2020-2030

6.2 Spend Analytics for Electronics and Semiconductor Market Forecast Analysis

7. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET ANALYSIS - BY COMPONENT

7.1 Software

7.1.1 Overview

7.1.2 Software: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

7.2 Service

7.2.1 Overview

7.2.2 Service: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

8. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET ANALYSIS - BY TYPE

8.1 Descriptive Analytics

8.1.1 Overview

8.1.2 Descriptive Analytics: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

8.2 Predictive Analytics

8.2.1 Overview

8.2.2 Predictive Analytics: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

8.3 Prescriptive Analytics

8.3.1 Overview

8.3.2 Prescriptive Analytics: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

9. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET ANALYSIS - BY DEPLOYMENT

9.1 On-Premise

9.1.1 Overview

9.1.2 On-Premise: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

9.2 Cloud

9.2.1 Overview

9.2.2 Cloud: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10. SOUTH & CENTRAL AMERICA SPEND ANALYTICS FOR ELECTRONICS AND SEMICONDUCTOR MARKET ANALYSIS - BY APPLICATION

10.1 Financial Management

10.1.1 Overview

10.1.2 Financial Management: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10.2 Risk Management

10.2.1 Overview

10.2.2 Risk Management: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10.3 Governance and Compliance Management

10.3.1 Overview

10.3.2 Governance and Compliance Management: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10.4 Supplier Sourcing and Performance Management

10.4.1 Overview

10.4.2 Supplier Sourcing and Performance Management: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10.5 Demand and Supply Forecasting

10.5.1 Overview

10.5.2 Demand and Supply Forecasting: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)

10.6 Others

10.6.1 Overview

10.6.2 Others: Spend Analytics for Electronics and Semiconductor Market - Revenue and Forecast to 2030 (US\$ Million)
