Abstracts

This report examines the Russian electronics industry (incl. electronic devices, electronic components, etc.).

The report provides an in-depth and true-to-life industry overview. It also includes updated information on leading manufacturers. Production and consumption volumes, as well as details of Russia's foreign trade with CIS and other countries, are provided for the 2005-2010 period.

In conclusion, the report highlights main trends in the Russian electronic device engineering sector, regarding the global electronics industry development in respect with current economic situation.

Contents

1. THE CURRENT STATE OF THE RUSSIAN ELECTRONICS INDUSTRY (INCL. ELECTRONIC DEVICE ENGINEERING SECTOR)

2. ELECTRONIC DEVICE PRODUCTION IN RUSSIA

2.1. Electronic device production, by region

2.1.1. Production of computing devices, by region

2.1.2. Automation devices for industrial and special applications, by region

2.1.3. Production of optical devices, by region

2.1.4. Production of resistors and capacitors, by region

2.2. Electronic device production volumes on Russian enterprises

2.2.1. Production of computing devices

2.2.2. Automation devices for general industrial applications (electric meters, counters, technological process control equipment, clocks and other measuring devices)

2.2.3. Automation devices for special applications (used in physics, nuclear industry, etc.)

2.2.4. Production of optical devices

2.2.5. Production of resistors and capacitors

3. PRODUCTION OF ELECTRONICS AND ELECTRONIC COMPONENTS IN RUSSIA

3.1. Electronics production, by region

3.1.1. Production of electronic components, by region

3.1.2. Production of integrated circuits, by region

3.1.3. Production of magnetic cores and magnets, by region

3.1.4. Production of other electronic components and equipment (transistors, semiconductor diodes, SHF devices, etc.), by region

3.1.5. Production of radio/television broadcasting and communications equipment, by region

3.1.6. Production of wired communication equipment, by region

3.2. Electronics production, by manufacturer

3.2.1. Production of electronic components

3.2.2. Production of integrated circuits

3.2.3. Production of magnetic cores and magnets

3.2.4. Production of other electronic components and equipment (transistors, semiconductor diodes, SHF devices, etc.)

- 3.2.5. Production of radio/television broadcasting and communications equipment
- 3.2.6. Production of telecommunication system equipment
- 3.2.7. Production of wired communication equipment

4. PRICES FOR ELECTRONIC DEVICES MANUFACTURED IN RUSSIA

- 4.1. Price dynamics for computing devices
- 4.2. Price dynamics for automation devices of industrial and special applications
- 4.2. Price dynamics for optical devices
- 4.3. Price dynamics for TVs, radios, and other AV electronics
- 4.4. Price dynamics for telephone sets

5. FOREIGN TRADE WITH ELECTRONIC DEVICES IN RUSSIA

- 5.1. Foreign trade with electromagnets
- 5.2. Foreign trade with resistors
- 5.3. Foreign trade with semiconductor devices
- 5.4. Foreign trade with integrated circuits
- 5.5. Foreign trade with telephone and telegraph sets
- 5.6. Foreign trade with microphones, speakers and headphones
- 5.7. Foreign trade with players, recorders, etc.
- 5.8. Foreign trade with other AV electronics
- 5.9. Foreign trade with radio and television broadcasting and communications equipment

6. INVESTMENTS INTO THE RUSSIAN ELECTRONICS INDUSTRY (INVESTMENT VOLUME AND SOURCES)

7. THE FORECAST FOR THE RUSSIAN ELECTRONICS INDUSTRY DEVELOPMENT

Notes.

Production by manufacturer is provided for 2005-2007.

The above Market Report is a half-ready report. It means that we have all necessary data in our database to prepare the report but need 3-5 days to complete it. During this time we are also updating the report with respect to the current moment. So, you can get up-to-date version for the same price.
