## Abstracts

This report is a comprehensive research of nuclear industry in Iran.

The first two chapters of the report feature the country profile by giving general information on Iran and by thoroughly studying its economic state, (including key macroeconomic indicators and their development trends). The third chapter covers common business procedures in the country: from starting a project to closing a business. This chapter elucidates the country's fiscal system, existing labour practices, property rights regulation peculiarities and other issues vital for running business in this country.

Further, the report analyses nuclear industry in the country by identifying key market players, (including major producers, traders, etc), as well by evaluating foreign economic relations within the sector in the recent three years.

Related news bulletins update and add the finishing touch to an overview of economical situation in Iran.

The aim of this study is to provide a tool which will assist strategy group and the management team specialists in making correct decisions as how to penetrate the Iran market and how to catch the maximum commercial opportunities in dealing with business partners in this country.

\*Please note that Nuclear industry in Iran: Business Report 2013 is a half ready publication.

It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 3-5 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. Business Analytic Center (BAC) has information for more than 25,000 different products available but it is impossible to have all reports updated immediately. That is why it takes 3-5 days to update a report after an order is received.
