

# Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022

<https://marketpublishers.com/r/AB8FBE96449EN.html>

Date: August 2022

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: AB8FBE96449EN

## Abstracts

Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022 presents comprehensive data on Acrylates copolymer markets globally and regionally (Europe, Asia, North America etc.)

The report includes Acrylates copolymer description, covers its application areas and related patterns. It overviews Acrylates copolymer market, names Acrylates copolymer producers and indicates its suppliers.

Besides, the report provides Acrylates copolymer prices in regional markets.

In addition to the above the report determines Acrylates copolymer consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

## Contents

### **1. ACRYLATES COPOLYMER (CAS 25133-97-5)**

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

### **2. ACRYLATES COPOLYMER APPLICATIONS**

- 2.1. Acrylates copolymer application spheres, downstream products

### **3. ACRYLATES COPOLYMER MANUFACTURING METHODS**

### **4. ACRYLATES COPOLYMER PATENTS**

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

### **5. ACRYLATES COPOLYMER MARKET WORLDWIDE**

- 5.1. General Acrylates copolymer market situation, trends
- 5.2. Manufacturers of Acrylates copolymer
  - Europe
  - Asia
  - North America
  - Other regions
- 5.3. Acrylates copolymer suppliers (importers, local distributors)
  - Europe
  - Asia
  - North America
  - Other regions

#### 5.4. Acrylates copolymer market forecast

### **6. ACRYLATES COPOLYMER MARKET PRICES**

#### 6.1. Acrylates copolymer prices in Europe

#### 6.2. Acrylates copolymer prices in Asia

#### 6.3. Acrylates copolymer prices in North America

#### 6.4. Acrylates copolymer prices in other regions

### **7. ACRYLATES COPOLYMER END-USE SECTOR**

#### 7.1. Acrylates copolymer market by application sphere

#### 7.2. Acrylates copolymer downstream markets trends and prospects

\*Please note that Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

## About

Acrylates copolymer, also known as polymer with ethyl acrylate, methyl methacrylate, methyl methacrylate, ethyl acrylate, methacrylic acid polymer, methacrylic acid, is a clear, colorless to yellowish, odorless liquid with the molecular formula  $C_{14}H_{22}O_6$  and molecular weight 286.32. The product is readily soluble in ketones and chlorinated hydrocarbons, esters. Acrylates copolymer is a monomer, which consists of acrylic acid, methacrylic acid or one of their simple esters. Suspension and stabilization, excellent freezing resistance, synergistic thickening with salt, pH flexibility are amid the properties of acrylates copolymer.

The product is widely used as a suspending agent, film forming agent, antistatic agent and fixative agent. It also finds its application in cosmetic products as a waterproofing agent, and in nail binding products as an adhesive. Acrylates copolymer can be found in mascara, hairspray, hair dye, body wash, etc. Furthermore, it is employed in cooling water systems.

Acrylates copolymer can cause irritation to eyes and skin. The exposure to the skin may result in pain, swelling, redness, allergic reaction. Inhalation of acrylates copolymer can lead to the respiratory tract irritation accompanied by sore throat, cough, shortness of breath.

Acrylates copolymer market is covered in the study Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks acrylates copolymer market situation, names manufacturers, suppliers as well as users. The report also provides current acrylates copolymer prices in the market.

## I would like to order

Product name: Acrylates copolymer (CAS 25133-97-5) Market Research Report 2022

Product link: <https://marketpublishers.com/r/AB8FBE96449EN.html>

Price: US\$ 2,200.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
