

Alpha-methylstyrene (CAS 98-83-9) Market Research Report 2025

<https://marketpublishers.com/r/ABAD4C17614EN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: ABAD4C17614EN

Abstracts

Alpha-methylstyrene (CAS 98-83-9) Market Research Report 2025 presents comprehensive data on ?-Methylstyrene markets globally and regionally (Europe, Asia, North America etc.)

The report includes ?-Methylstyrene description, covers its application areas and related patterns. It overviews ?-Methylstyrene market, names ?-Methylstyrene producers and indicates its suppliers.

Besides, the report provides ?-Methylstyrene prices in regional markets.

In addition to the above the report determines ?-Methylstyrene consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Alpha-methylstyrene (CAS 98-83-9) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. α -METHYLSTYRENE (CAS 98-83-9)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. α -METHYLSTYRENE APPLICATIONS

- 2.1. α -Methylstyrene application spheres, downstream products

3. α -METHYLSTYRENE MANUFACTURING METHODS

4. α -METHYLSTYRENE PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. α -METHYLSTYRENE MARKET WORLDWIDE

- 5.1. General α -Methylstyrene market situation, trends
- 5.2. Manufacturers of α -Methylstyrene
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. α -Methylstyrene suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. ?-Methylstyrene market forecast

6. ??-METHYLSTYRENE MARKET PRICES

6.1. ?-Methylstyrene prices in Europe

6.2. ?-Methylstyrene prices in Asia

6.3. ?-Methylstyrene prices in North America

6.4. ?-Methylstyrene prices in other regions

7. ??-METHYLSTYRENE END-USE SECTOR

7.1. ?-Methylstyrene market by application sphere

7.2. ?-Methylstyrene downstream markets trends and prospects

*Please note that Alpha-methylstyrene (CAS 98-83-9) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name:	α-Methylstyrene
Synonyms:	2-Phenyl-1-propene 1-Methyl-1-phenylethylene 1-Methylethenylbenzene 2-Phenylpropene Isopropenylbenzene Prop-1-en-2-ylbenzene α-Methylstyrene

CAS#:	98-83-9
Formula:	C ₉ H ₁₀
Molecular Weight:	118.18

Alpha-methylstyrene (2-Phenylpropene; AMS; beta-Phenylpropene; Isopropenylbenzene; 2-Phenylpropylene, etc.) is a unique chemical intermediate with the molecular formula C₉H₁₀ and molecular weight 118.17. The product is manufactured from the phenol reaction.

Alpha-methylstyrene exists as a colorless liquid with a sharp aromatic smell. The liquid has a melting point of -24 °C and a boiling point of 165-169 °C. Alpha-methylstyrene is insoluble in water and soluble in chloroform, ethanol, benzene, n-heptane.

Alpha-methylstyrene is widely used as a plasticizer for coatings and paints. Moreover, the product improves clarity in acrylic resins. It is employed as a chain terminator in polycarbonate resins; a UV stabilizer and antioxidant intermediate. Furthermore, alpha-methylstyrene is found in alkyd resins, perfumery chemicals, modified phenolic resins, drying oils, etc.

The product can provoke eye and skin irritation. Ingestion of alpha-methylstyrene may lead to irritation of the digestive tract. Inhalation causes respiratory tract irritation.

Alpha-methylstyrene market is covered in the study Alpha-methylstyrene (CAS 98-83-9) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks alpha-methylstyrene market situation, names manufacturers, suppliers as well as users. The report also provides current alpha-methylstyrene prices in the market.
