

Butylethylmagnesium (CAS 62202-86-2) Market Research Report 2025

<https://marketpublishers.com/r/BD36056C90CEN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: BD36056C90CEN

Abstracts

Butylethylmagnesium (CAS 62202-86-2) Market Research Report 2025 presents comprehensive data on Butylethylmagnesium markets globally and regionally (Europe, Asia, North America etc.)

The report includes Butylethylmagnesium description, covers its application areas and related patterns. It overviews Butylethylmagnesium market, names Butylethylmagnesium producers and indicates its suppliers.

Besides, the report provides Butylethylmagnesium prices in regional markets.

In addition to the above the report determines Butylethylmagnesium consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Butylethylmagnesium (CAS 62202-86-2) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. BUTYLETHYLMAGNESIUM (CAS 62202-86-2)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. BUTYLETHYLMAGNESIUM APPLICATIONS

- 2.1. Butylethylmagnesium application spheres, downstream products

3. BUTYLETHYLMAGNESIUM MANUFACTURING METHODS

4. BUTYLETHYLMAGNESIUM PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. BUTYLETHYLMAGNESIUM MARKET WORLDWIDE

- 5.1. General Butylethylmagnesium market situation, trends
- 5.2. Manufacturers of Butylethylmagnesium
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Butylethylmagnesium suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Butylethylmagnesium market forecast

6. BUTYLETHYLMAGNESIUM MARKET PRICES

6.1. Butylethylmagnesium prices in Europe

6.2. Butylethylmagnesium prices in Asia

6.3. Butylethylmagnesium prices in North America

6.4. Butylethylmagnesium prices in other regions

7. BUTYLETHYLMAGNESIUM END-USE SECTOR

7.1. Butylethylmagnesium market by application sphere

7.2. Butylethylmagnesium downstream markets trends and prospects

*Please note that Butylethylmagnesium (CAS 62202-86-2) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Butylethylmagnesium is a chemical compound with the molecular formula $C_6H_{14}Mg$ and molecular weight 110.48. The product exists as a clear, colorless to slightly hazy liquid that dissolves in aromatic and saturated aliphatic and cycloaliphatic hydrocarbons. Butylethylmagnesium has a melting point of $-42^{\circ}C$.

The product refers to the group of magnesium alkyls. Butylethylmagnesium finds its application in the polyolefin industry. The compound is used in the manufacture of Ziegler-Natta-type catalysts in olefin polymerization. Moreover, butylethylmagnesium is used as a deprotonation agent in pharmaceutical synthesis and as an alkylating agent.

Butylethylmagnesium can provoke eye and skin burns. Gastrointestinal irritation characterized by diarrhea, vomiting and nausea; gastrointestinal irritation; chemical pneumonitis are among potential health effects caused by the ingestion of the product. Inhalation of butylethylmagnesium may produce burns to the respiratory tract; headache; unconsciousness; nausea and even coma. Overexposure to the product may result in lung damage.

Butylethylmagnesium market is covered in the study Butylethylmagnesium (CAS 62202-86-2) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks butylethylmagnesium market situation, names manufacturers, suppliers as well as users. The report also provides current butylethylmagnesium prices in the market.
