

Chlorinated Polyvinyl Chloride (CAS 68648-82-8) Market Research Report 2025

<https://marketpublishers.com/r/CAC8A6A1ABBEN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: CAC8A6A1ABBEN

Abstracts

Chlorinated Polyvinyl Chloride (CAS 68648-82-8) Market Research Report 2025 presents comprehensive data on Polyvinyl chloride, chlorinated markets globally and regionally (Europe, Asia, North America etc.)

The report includes Polyvinyl chloride, chlorinated description, covers its application areas and related patterns. It overviews Polyvinyl chloride, chlorinated market, names Polyvinyl chloride, chlorinated producers and indicates its suppliers.

Besides, the report provides Polyvinyl chloride, chlorinated prices in regional markets.

In addition to the above the report determines Polyvinyl chloride, chlorinated consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Chlorinated Polyvinyl Chloride (CAS 68648-82-8) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. POLYVINYL CHLORIDE, CHLORINATED (CAS 68648-82-8)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. POLYVINYL CHLORIDE, CHLORINATED APPLICATIONS

- 2.1. Polyvinyl chloride, chlorinated application spheres, downstream products

3. POLYVINYL CHLORIDE, CHLORINATED MANUFACTURING METHODS

4. POLYVINYL CHLORIDE, CHLORINATED PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. POLYVINYL CHLORIDE, CHLORINATED MARKET WORLDWIDE

- 5.1. General Polyvinyl chloride, chlorinated market situation, trends
- 5.2. Manufacturers of Polyvinyl chloride, chlorinated
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Polyvinyl chloride, chlorinated suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Polyvinyl chloride, chlorinated market forecast

6. POLYVINYL CHLORIDE, CHLORINATED MARKET PRICES

6.1. Polyvinyl chloride, chlorinated prices in Europe

6.2. Polyvinyl chloride, chlorinated prices in Asia

6.3. Polyvinyl chloride, chlorinated prices in North America

6.4. Polyvinyl chloride, chlorinated prices in other regions

7. POLYVINYL CHLORIDE, CHLORINATED END-USE SECTOR

7.1. Polyvinyl chloride, chlorinated market by application sphere

7.2. Polyvinyl chloride, chlorinated downstream markets trends and prospects

*Please note that Chlorinated Polyvinyl Chloride (CAS 68648-82-8) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name: Polyvinyl chloride, chlorinated
CAS#: 68648-82-8

Chlorinated polyvinyl chloride (Chlorinated Polyvinyl Chloride; Ethene, chloro-, homopolymer, chlorinated; Chlorinated polyvinyl chloride resins, etc.) is a solid, light-colored thermoplastic with a melting point of 212°C.

The thermoplastic is produced by chlorination of polyvinyl chloride (PVC) resin. Chlorinated polyvinyl chloride and polyvinyl chloride share similar features and properties. Still, chlorinated polyvinyl chloride is more ductile, which makes the product more flexible and crush resistant. The thermoplastic is highly corrosion resistant at high temperatures and shows fire-retardant properties.

Chlorinated polyvinyl chloride can be used in many processes. It is suitable for self-supporting constructions. Moreover, chlorinated polyvinyl chloride is used in the production of pipes, pumps, valves, strainers, filters, fume scrubbers, waste disposal devices, and automotive interior parts, among others.

Chlorinated polyvinyl chloride poses no specific side health effects on humans. However, the prolonged contact with the thermoplastic may cause coughing, inflammation and irritation of respiratory tract, eyes and skin.

Chlorinated polyvinyl chloride market is covered in the study Chlorinated Polyvinyl Chloride (CAS 68648-82-8) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks chlorinated polyvinyl chloride market situation, names manufacturers, suppliers as well as users. The report also provides current chlorinated polyvinyl chloride prices.
