

Diisopropyl ether (CAS 108-20-3) Market Research Report 2025

<https://marketpublishers.com/r/D3C3CFAE20CEN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: D3C3CFAE20CEN

Abstracts

Diisopropyl ether (CAS 108-20-3) Market Research Report 2025 presents comprehensive data on Diisopropyl ether markets globally and regionally (Europe, Asia, North America etc.)

The report includes Diisopropyl ether description, covers its application areas and related patterns. It overviews Diisopropyl ether market, names Diisopropyl ether producers and indicates its suppliers.

Besides, the report provides Diisopropyl ether prices in regional markets.

In addition to the above the report determines Diisopropyl ether consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Diisopropyl ether (CAS 108-20-3) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. DIISOPROPYL ETHER (CAS 108-20-3)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. DIISOPROPYL ETHER APPLICATIONS

- 2.1. Diisopropyl ether application spheres, downstream products

3. DIISOPROPYL ETHER MANUFACTURING METHODS

4. DIISOPROPYL ETHER PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. DIISOPROPYL ETHER MARKET WORLDWIDE

- 5.1. General Diisopropyl ether market situation, trends
- 5.2. Manufacturers of Diisopropyl ether
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Diisopropyl ether suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Diisopropyl ether market forecast

6. DIISOPROPYL ETHER MARKET PRICES

6.1. Diisopropyl ether prices in Europe

6.2. Diisopropyl ether prices in Asia

6.3. Diisopropyl ether prices in North America

6.4. Diisopropyl ether prices in other regions

7. DIISOPROPYL ETHER END-USE SECTOR

7.1. Diisopropyl ether market by application sphere

7.2. Diisopropyl ether downstream markets trends and prospects

*Please note that Diisopropyl ether (CAS 108-20-3) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name:	Diisopropyl ether
Synonyms:	Isopropyl ether
	Isopropyl ether; diisopropyl ether
	2,2'-Oxybispropane
	2-Isopropoxypropane
	Diisopropyl oxide

CAS#:	108-20-3
Formula:	$C_6H_{14}O$
Molecular Weight:	102.17

Diisopropyl ether is a colorless liquid with the chemical formula $C_6H_{14}O$. It has ether-like odor and is slightly soluble in water, but capable of mixing with most organic solvents. Diisopropyl ether has a melting point of $-60\text{ }^\circ\text{C}$ and a boiling point of $68.5\text{ }^\circ\text{C}$. This material is highly flammable and it can form explosive peroxides.

Diisopropyl ether has a wide range of industrial applications. The major application of the product is the manufacture of solvents given its ability to dissolve oil-based solutions. Diisopropyl ether makes an ideal base for many waxes, varnishes, resins, paints, lacquers and dyes. As a solvent, it is also required in the production of stain removers and paint thinners. It is also used in the fuel industry as an oxygenate gasoline additive given its ability to increase octane levels. Chemical manufacturers use diisopropyl ether in organic synthesis, when studying various chemicals. Owing to its solvent nature, the product is also required in the chromatographic analysis.

Atomax Chemicals Co., Merck Schuchardt OHG, Panreac Quimica, S.A.U., Hangzhou Dayangchem Co., Alpha Chemika, Spectrum Chemical Mfg. Corp., EMD Biosciences, Inc., Santa Cruz Biotechnology, Inc. and Haihang Industry Co. are among the leading manufacturers of diisopropyl ether.

The diisopropyl ether market is covered in the study Diisopropyl ether (CAS 108-20-3)

Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks the diisopropyl ether market situation, names manufacturers, suppliers as well as users. The report also provides current diisopropyl ether prices.
