

# Fulvic Acid (CAS 479-66-3) Market Research Report 2025

<https://marketpublishers.com/r/FB940AD40B2EN.html>

Date: August 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: FB940AD40B2EN

## Abstracts

Fulvic Acid (CAS 479-66-3) Market Research Report 2025 presents comprehensive data on Fulvic Acid markets globally and regionally (Europe, Asia, North America etc.)

The report includes Fulvic Acid description, covers its application areas and related patterns. It overviews Fulvic Acid market, names Fulvic Acid producers and indicates its suppliers.

Besides, the report provides Fulvic Acid prices in regional markets.

In addition to the above the report determines Fulvic Acid consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Fulvic Acid (CAS 479-66-3) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

## Contents

### **1. FULVIC ACID (CAS 479-66-3)**

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

### **2. FULVIC ACID APPLICATIONS**

- 2.1. Fulvic Acid application spheres, downstream products

### **3. FULVIC ACID MANUFACTURING METHODS**

### **4. FULVIC ACID PATENTS**

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

### **5. FULVIC ACID MARKET WORLDWIDE**

- 5.1. General Fulvic Acid market situation, trends
- 5.2. Manufacturers of Fulvic Acid
  - Europe
  - Asia
  - North America
  - Other regions
- 5.3. Fulvic Acid suppliers (importers, local distributors)
  - Europe
  - Asia
  - North America
  - Other regions

#### 5.4. Fulvic Acid market forecast

### **6. FULVIC ACID MARKET PRICES**

#### 6.1. Fulvic Acid prices in Europe

#### 6.2. Fulvic Acid prices in Asia

#### 6.3. Fulvic Acid prices in North America

#### 6.4. Fulvic Acid prices in other regions

### **7. FULVIC ACID END-USE SECTOR**

#### 7.1. Fulvic Acid market by application sphere

#### 7.2. Fulvic Acid downstream markets trends and prospects

\*Please note that Fulvic Acid (CAS 479-66-3) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

## About

Product Name: Fulvic Acid

Synonyms:

Fulvic acid

3,7,8-Trihydroxy-3-methyl-10-oxo-4,10-dihydro-1H,3H-pyrano[4,3-b]chromene-9-carboxylic acid

4,10-Dihydro-3,7,8-trihydroxy-3-methyl-10-oxo-1H,3H-pyrano[4,3-b][1]benzopyran-9-carboxylic acid

CAS#: 479-66-3

Formula:  $C_{14}H_{12}O_8$

Molecular Weight: 308.24028

Fulvic acid is a natural acidic organic polymer with the molecular formula  $C_{14}H_{12}O_8$  and molecular weight 308.24. The acid exists as an odorless yellow solid that is soluble in methanol, benzene and insoluble in water. The product is obtained from humus that is found in soil, aquatic environments and sediment. Fulvic acid contains supercharged antioxidants, super oxide dismutases, hormones, bio-chemicals, amino acids, natural fungicides, etc. The acid is a product of microbial metabolism.

Direct contact of fulvic acid with the eyes may result in transient discomfort followed by conjunctival redness and tearing. Fulvic acid can hardly cause severe skin irritation or damage but still some slight side effects to the skin are possible. Ingestion of the acid may lead to the gastrointestinal tract discomfort characterized by vomiting and nausea. Inhalation of fulvic acid may produce airway diseases and conditions such as emphysema or chronic bronchitis in people with impaired respiratory function. Prolonged or repeated exposure to high concentrations of fulvic acid dust can cause changes in lung function.

The product protects the human body from free radicals that get into the body through the food and from environmental toxins. Fulvic acid acts as electrolyte that balances the minerals that drive neurons in the brain. The acid plays a role in enhancing the availability and absorption of nutrients, promoting plants sprout and growth. The product

finds its application in the industrial production, horticulture, agriculture, water treatment, etc. Moreover, the acid is used in RNA and DNA synthesis.

Fulvic acid market is covered in the study Fulvic Acid (CAS 479-66-3) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks fulvic acid market situation, names manufacturers, suppliers as well as users. The report also provides current fulvic acid prices in the market.

## I would like to order

Product name: Fulvic Acid (CAS 479-66-3) Market Research Report 2025

Product link: <https://marketpublishers.com/r/FB940AD40B2EN.html>

Price: US\$ 2,200.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:
