

Galactaric acid (CAS 526-99-8) Market Research Report 2025

<https://marketpublishers.com/r/GB7B40C69C5EN.html>

Date: May 2025

Pages: 100

Price: US\$ 2,200.00 (Single User License)

ID: GB7B40C69C5EN

Abstracts

Galactaric acid (CAS 526-99-8) Market Research Report 2025 presents comprehensive data on Galactaric acid markets globally and regionally (Europe, Asia, North America etc.)

The report includes Galactaric acid description, covers its application areas and related patterns. It overviews Galactaric acid market, names Galactaric acid producers and indicates its suppliers.

Besides, the report provides Galactaric acid prices in regional markets.

In addition to the above the report determines Galactaric acid consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Galactaric acid (CAS 526-99-8) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. GALACTARIC ACID (CAS 526-99-8)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. GALACTARIC ACID APPLICATIONS

- 2.1. Galactaric acid application spheres, downstream products

3. GALACTARIC ACID MANUFACTURING METHODS

4. GALACTARIC ACID PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. GALACTARIC ACID MARKET WORLDWIDE

- 5.1. General Galactaric acid market situation, trends
- 5.2. Manufacturers of Galactaric acid
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Galactaric acid suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Galactaric acid market forecast

6. GALACTARIC ACID MARKET PRICES

6.1. Galactaric acid prices in Europe

6.2. Galactaric acid prices in Asia

6.3. Galactaric acid prices in North America

6.4. Galactaric acid prices in other regions

7. GALACTARIC ACID END-USE SECTOR

7.1. Galactaric acid market by application sphere

7.2. Galactaric acid downstream markets trends and prospects

*Please note that Galactaric acid (CAS 526-99-8) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name:	Galactaric acid
Synonyms:	Mucic Acid
	Mucic acid
	Tetrahydroxyadipic acid
CAS#:	526-99-8

Mucic acid (galactarate, L-gularic acid, galactaric acid, glucarate, etc.) refers to an aldaric acid. Mucic acid is a white to light beige solid with the molecular formula $C_6H_{10}O_8$ and molecular weight 210.13. The product is insoluble in alcohol and in cold water. The boiling point of mucic acid is 766.4 °C.

Mucic acid is utilized in the cosmetics industry for the manufacturing of skin care products. The acid is also crucial in the production of ammonium mucate. Moreover, mucic acid can replace tartaric acid in self-rising flour or fizzies. Besides, mucic acid is used as an intermediate of isomethoptene mucate. In combination with potassium bisulfate, mucic acid forms 3-hydroxy-2-pyrone.

The acid can cause eyes, skin the digestive and respiratory tract irritation. Overexposure to high dust concentrations of mucic acid can produce changes in the functions of lungs.

Mucic acid market is covered in the study Mucic Acid (CAS 526-99-8) Market Research Report 2013. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks mucic acid market situation, names manufacturers, suppliers as well as users. The report also provides current mucic acid prices in the market.
