

HUMIC ACID (CAS 1415-93-6) Market Research Report 2025

<https://marketpublishers.com/r/H4B1CF06F60EN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: H4B1CF06F60EN

Abstracts

HUMIC ACID (CAS 1415-93-6) Market Research Report 2025 presents comprehensive data on HUMIC ACID markets globally and regionally (Europe, Asia, North America etc.)

The report includes HUMIC ACID description, covers its application areas and related patterns. It overviews HUMIC ACID market, names HUMIC ACID producers and indicates its suppliers.

Besides, the report provides HUMIC ACID prices in regional markets.

In addition to the above the report determines HUMIC ACID consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

HUMIC ACID (CAS 1415-93-6) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. HUMIC ACID (CAS 1415-93-6)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. HUMIC ACID APPLICATIONS

- 2.1. HUMIC ACID application spheres, downstream products

3. HUMIC ACID MANUFACTURING METHODS

4. HUMIC ACID PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. HUMIC ACID MARKET WORLDWIDE

- 5.1. General HUMIC ACID market situation, trends
- 5.2. Manufacturers of HUMIC ACID
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. HUMIC ACID suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. HUMIC ACID market forecast

6. HUMIC ACID MARKET PRICES

6.1. HUMIC ACID prices in Europe

6.2. HUMIC ACID prices in Asia

6.3. HUMIC ACID prices in North America

6.4. HUMIC ACID prices in other regions

7. HUMIC ACID END-USE SECTOR

7.1. HUMIC ACID market by application sphere

7.2. HUMIC ACID downstream markets trends and prospects

*Please note that HUMIC ACID (CAS 1415-93-6) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name:	HUMIC ACID
Synonyms:	Hyaluronic acid Humic acid
CAS#:	1415-93-6
Formula:	$C_9H_9NO_6$
Molecular Weight:	227.169998168945
Appearance:	White to off-white powder with a bland odor. Organic matter found in soil.
Usage:	Organic fertilizers. Chelating agent.

Humic acid is a natural acidic organic polymer with the molecular formula $C_{187}H_{186}O_{89}N_9S_1$ and molecular weight 227.16. The product occurs as powder with a bland odor. This acid is a component of humic substances formed by the microbial degradation of dead plant matter, such as lignin. Humic acid is mainly found in manure, peat, lignite coal, and leonardite.

Organic greenhouse-farming and farming, agriculture, horticulture, the paper and cardboard-industry, the battery, ceramics, cement, and concrete industries are amid the key consumers of humic acid. Humic acid is used as organic feed ingredient and is effective in combating environmental pollution. The product demonstrates a wide range of benefits to crop production, it stimulates the development of microflora populations in soils. It is a highly effective compliment to fertilizers. Humic acid increases water holding capacity, buffering properties of soil, aeration of soil, root respiration and formation, vitamin content of plants; stimulates root growth, plant enzymes, etc.

Humic acid can cause irritation of eyes characterized by stinging, tearing, redness, and swelling of eyes. Furthermore, the product may provoke redness, swelling and burning of the skin. The inhalation and ingestion of large amounts of humic acid is potentially harmful.

Humic acid market is covered in the study HUMIC ACID (CAS 1415-93-6) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks

humic acid market situation, names manufacturers, suppliers as well as users. The report also provides current humic acid prices in the market.
