

Mucic Acid (CAS 526-99-8) Market Research Report 2025

<https://marketpublishers.com/r/M1B36DAC15CEN.html>

Date: May 2025

Pages: 70

Price: US\$ 2,200.00 (Single User License)

ID: M1B36DAC15CEN

Abstracts

Mucic Acid (CAS 526-99-8) Market Research Report 2025 presents comprehensive data on Mucic Acid markets globally and regionally (Europe, Asia, North America etc.)

The report includes Mucic Acid description, covers its application areas and related patterns. It overviews Mucic Acid market, names Mucic Acid producers and indicates its suppliers.

Besides, the report provides Mucic Acid prices in regional markets.

In addition to the above the report determines Mucic Acid consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Mucic Acid (CAS 526-99-8) Market Research Report 2025 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. MUCIC ACID (CAS 526-99-8)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. MUCIC ACID APPLICATIONS

- 2.1. Mucic Acid application spheres, downstream products

3. MUCIC ACID MANUFACTURING METHODS

4. MUCIC ACID PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. MUCIC ACID MARKET WORLDWIDE

- 5.1. General Mucic Acid market situation, trends
- 5.2. Manufacturers of Mucic Acid
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Mucic Acid suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Mucic Acid market forecast

6. MUCIC ACID MARKET PRICES

6.1. Mucic Acid prices in Europe

6.2. Mucic Acid prices in Asia

6.3. Mucic Acid prices in North America

6.4. Mucic Acid prices in other regions

7. MUCIC ACID END-USE SECTOR

7.1. Mucic Acid market by application sphere

7.2. Mucic Acid downstream markets trends and prospects

*Please note that Mucic Acid (CAS 526-99-8) Market Research Report 2025 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name: Mucic Acid

Synonyms:

Galactaric acid

Mucic acid

Tetrahydroxyadipic acid

CAS#: 526-99-8

Mucic acid (galactarate, L-gularic acid, galactaric acid, glucarate, etc.) refers to an aldaric acid. Mucic acid is a white to light beige solid with the molecular formula $C_6H_{10}O_8$ and molecular weight 210.13. The product is insoluble in alcohol and in cold water. The boiling point of mucic acid is 766.4 °C.

Mucic acid is utilized in the cosmetics industry for the manufacturing of skin care products. The acid is also crucial in the production of ammonium mucate. Moreover, mucic acid can replace tartaric acid in self-rising flour or fizzies. Besides, mucic acid is used as an intermediate of isomethoptene mucate. In combination with potassium bisulfate, mucic acid forms 3-hydroxy-2-pyrone.

The acid can cause eyes, skin the digestive and respiratory tract irritation. Overexposure to high dust concentrations of mucic acid can produce changes in the functions of lungs.

Mucic acid market is covered in the study Mucic Acid (CAS 526-99-8) Market Research Report 2025. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks mucic acid market situation, names manufacturers, suppliers as well as users. The report also provides current mucic acid prices in the market.
