

Red Clover P.E. (CAS 85085-25-2) Market Research Report 2024

<https://marketpublishers.com/r/R899E8A3AF1EN.html>

Date: May 2024

Pages: 50

Price: US\$ 2,200.00 (Single User License)

ID: R899E8A3AF1EN

Abstracts

Red Clover P.E. (CAS 85085-25-2) Market Research Report 2024 presents comprehensive data on Red Clover P.E. markets globally and regionally (Europe, Asia, North America etc.)

The report includes Red Clover P.E. description, covers its application areas and related patterns. It overviews Red Clover P.E. market, names Red Clover P.E. producers and indicates its suppliers.

Besides, the report provides Red Clover P.E. prices in regional markets.

In addition to the above the report determines Red Clover P.E. consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Red Clover P.E. (CAS 85085-25-2) Market Research Report 2024 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. RED CLOVER P.E. (CAS 85085-25-2)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. RED CLOVER P.E. APPLICATIONS

- 2.1. Red Clover P.E. application spheres, downstream products

3. RED CLOVER P.E. MANUFACTURING METHODS

4. RED CLOVER P.E. PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. RED CLOVER P.E. MARKET WORLDWIDE

- 5.1. General Red Clover P.E. market situation, trends
- 5.2. Manufacturers of Red Clover P.E.
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Red Clover P.E. suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Red Clover P.E. market forecast

6. RED CLOVER P.E. MARKET PRICES

6.1. Red Clover P.E. prices in Europe

6.2. Red Clover P.E. prices in Asia

6.3. Red Clover P.E. prices in North America

6.4. Red Clover P.E. prices in other regions

7. RED CLOVER P.E. END-USE SECTOR

7.1. Red Clover P.E. market by application sphere

7.2. Red Clover P.E. downstream markets trends and prospects

*Please note that Red Clover P.E. (CAS 85085-25-2) Market Research Report 2024 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name: Red Clover P.E.

Synonyms:

Red Clover

Clover extract (trifolium pratense)

Red clover extract

Trifolium pratense extract

CAS#: 85085-25-2

Red clover (*Trifolium pratense*) is an herbaceous, short-lived perennial plant belonging to the legume family that is used for grazing cattle and other livestock. It can grow up to 80 cm in height and has small trifoliate leaves. Red clover is a source of many nutrients including calcium, chromium, magnesium, niacin, phosphorus, potassium, thiamine, and vitamin C.

Besides being grown as a fodder crop, red clover has been used medicinally to treat a wide array of conditions – cancer, mastitis, joint disorders, jaundice, bronchitis, spasmodic coughing, asthma, and skin inflammations like psoriasis and eczema. Red clover is thought to "purify" the blood by promoting urine and mucous production, improving circulation, and stimulating the secretion of bile.

Recently, specific chemicals in red clover, known as isoflavones (estrogen-like compounds), have been isolated and tested for their effectiveness in treating a variety of conditions such as cardiovascular disease and the symptoms of menopause such as low HDL, hot flashes and the bone loss associated with osteoporosis.

It has also been proposed that red clover may help prevent some forms of cancer, such as prostate and endometrial cancer. But because of the herb's estrogen like effects, it might also contribute to the growth of some cancers, just as estrogen does.

However, the evidence that red clover helps relieve menopausal symptoms is mixed. There is also not enough scientific evidence to determine whether red clover is effective for any other health conditions.

It should be noted that red clover is not advisable for women with breast cancer to ingest red clover, as well as women who are on any kind of hormone medications, including women who take birth control pills. Due to its coumarin derivatives, it should be used in caution in individuals with coagulation disorders or currently undergoing anticoagulation therapy.

Red clover is available in a variety of preparations, including teas, tinctures, tablets, capsules, liquid extract, and extracts standardized to specific isoflavone contents. It can also be prepared as an ointment for topical (skin) application.

Red clover market is covered in the study Red Clover (CAS 85085-25-2) Market Research Report 2012. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks red clover market situation, names manufacturers, suppliers as well as users. The report also provides current red clover prices in the market.
