

Streptonivicin (CAS 56030-54-7) Market Research Report 2026

<https://marketpublishers.com/r/S01783A332EEN.html>

Date: June 2026

Pages: 50

Price: US\$ 2,200.00 (Single User License)

ID: S01783A332EEN

Abstracts

Streptonivicin (CAS 56030-54-7) Market Research Report 2026 presents comprehensive data on Streptonivicin markets globally and regionally (Europe, Asia, North America etc.)

The report includes Streptonivicin description, covers its application areas and related patterns. It overviews Streptonivicin market, names Streptonivicin producers and indicates its suppliers.

Besides, the report provides Streptonivicin prices in regional markets.

In addition to the above the report determines Streptonivicin consumers in the market.

BAC Reports offers its clients in-depth market research of chemical industry products on the global and regional markets (North & Latin America, Asia Pacific, European Union, Russia and CIS).

We can analyze the following elements for each chemical product in any country or region:

capacities and production

consumption volume and structure

market price trends

exports and imports

existing technologies

feedstock market condition

market news digest

market forecast.

Streptonivicin (CAS 56030-54-7) Market Research Report 2026 can feature:

market condition and estimations, market forecast

chemical product ranges, trademarks, analogous products, application areas

regional and global producers, consumers and traders (including contact details).

Contents

1. STREPTONIVICIN (CAS 56030-54-7)

- 1.1. General information, synonyms
- 1.2. Composition, chemical structure
- 1.3. Safety information
- 1.4. Hazards identification
- 1.5. Handling and storage
- 1.6. Toxicological & ecological information
- 1.7. Transport information

2. STREPTONIVICIN APPLICATIONS

- 2.1. Streptonivicin application spheres, downstream products

3. STREPTONIVICIN MANUFACTURING METHODS

4. STREPTONIVICIN PATENTS

- Abstract
- Description
- Summary of the invention
- Detailed description of the invention

5. STREPTONIVICIN MARKET WORLDWIDE

- 5.1. General Streptonivicin market situation, trends
- 5.2. Manufacturers of Streptonivicin
 - Europe
 - Asia
 - North America
 - Other regions
- 5.3. Streptonivicin suppliers (importers, local distributors)
 - Europe
 - Asia
 - North America
 - Other regions

5.4. Streptonivicin market forecast

6. STREPTONIVICIN MARKET PRICES

6.1. Streptonivicin prices in Europe

6.2. Streptonivicin prices in Asia

6.3. Streptonivicin prices in North America

6.4. Streptonivicin prices in other regions

7. STREPTONIVICIN END-USE SECTOR

7.1. Streptonivicin market by application sphere

7.2. Streptonivicin downstream markets trends and prospects

*Please note that Streptonivicin (CAS 56030-54-7) Market Research Report 2026 is a half ready publication and contents are subject to change. It only requires updating with the help of new data that are constantly retrieved from Publisher's databases and other sources. This updating process takes 5-7 business days after order is placed. Thus, our clients always obtain a revised and updated version of each report. Please also note that we do not charge for such an updating procedure. BAC Reports has information for more than 25,000 different chemicals available but it is impossible to have all reports updated immediately. That is why it takes 5-7 days to update a report after an order is received.

About

Product Name: Streptonivicin

Synonyms:

Sufentanil

N-{4-(Methoxymethyl)-1-[2-(2-thienylethyl)]-4-piperidiny]}-N-phenylpropanamide

N-{4-(Methoxymethyl)-1-[2-(2-thienylethyl)]-4-piperidiny]}-propionanilide

CAS#: 56030-54-7

Sufentanil (Chronogesic, Sufenta, Sufentanilum, Sufentanyl, Sulfentanil, Sulfentanyl, Sufentanil citrate) refers to a strong synthetic opioid analgesic with the molecular formula $C_{22}H_{30}N_{2}O_2S$. Sufentanil exists as white crystals from petroleum ether. First the product was synthesized in 1974. Sufentanil is the most lipid-soluble drug.

The drug is an opioid pain reliever that is used in anesthesia, in balanced anesthesia, and as a primary anesthetic agent during the surgery and medical procedures. Sufentanil is given as an injection into a muscle or intravenously. Moreover, the product is utilized for epidural anesthesia. Lipid solubility and ionization determine the rapid cell membrane penetration and onset of action of sufentanil. Sufentanil exhibits a very rapid onset of analgesia as the product is readily absorbed through mucosal tissues and distributed throughout the body. Opioid side effects of sufentanil can be increased because of active metabolites.

Irritation of eye tissue, narcotic effect, sedation, pinpoint pupils, mood alterations, nausea, vomiting, constipation, respiratory depression, dizziness, central nervous system depression are amid the most common side effects of sufentanil. Large doses of the product can cause respiratory or cardiac arrest and death.

Sufentanil market is covered in the study Sufentanil (CAS 56030-54-7) Market Research Report 2013. The report encompasses proper description of the product, unveils application areas, and briefly summarizes patents in the sphere. It overlooks sufentanil market situation, names manufacturers, suppliers as well as users. The report

also provides current sufentanil prices in the market.
