Abstracts

This report examines international trade and worldwide market trends pertaining to coffee. The report will be of considerable interest primarily to relevant strategic planners, senior company officials and importers/exporters, since it features invaluable information on coffee export/import operations segmented by country and region. The report covers the 2018-2023 period, with more emphasis on foreign trade in 2023.

The report provides the following analytical materials on the coffee: general description, international trade dynamics (2018-2023), exports/imports (2023) broken down by country, major suppliers and consumers, average price. The report also contains world market development forecast for 2024-2028.
