## Abstracts

Ukraine's market of mineral fertilizers can be evaluated as attractive and very promising.

The Ukrainian chemical industry currently develops largely at the expense of exports. Ukraine is the world's major exporter of nitrogen fertilizers. The main export products are carbamide and ammonium nitrate.

### **The following issues will be presented in the study:**

analysis of the market formation and functioning peculiarities;

key market players;

main trends in Ukraine's mineral fertilizer production;

structure of foreign trade operations;

pricing and competitive ability;

provision of the farming sector with mineral fertilizers;

government regulation of the market
