## **Abstracts**

As per the latest report published by Variant Market Research, Global Corrugated Packaging Market is estimated to reach \$218 million by 2024; growing at a CAGR of 4.1% from 2016 to 2024. Corrugated packaging is widely used in various end use industries such as fresh food and produce, processed food, beverages, personal and household care, chemicals, paper products, & electrical and electronic goods. Due to low cost, ecofriendly feature, and its strength, it is widely adopted by many manufacturers for product packaging solutions globally. Various factors such as rising consumer awareness towards health and environment with huge population and growing e-commerce along with growing industrial production in the emerging countries are driving the growth of the corrugated packaging market over the forecasted period.

Major factors driving the global corrugated packaging market are high usage in end use industries such as food, medicines, consumer durables, low cost & high strength, and growing demand of corrugated packaging owing to organized retailing, and growing manufacturing sector. However, low degree of durability may hamper the market growth. Furthermore, growing demand for consumer products with increasing population and emergent markets would unfold with numerous growth opportunities in

the forecasted years.

Major segments in the global corrugated packaging market are application, and geography.
