Abstracts

Global Food Service Equipment Market is forecasted to reach \$63 billion by 2024; growing at a CAGR of 5.6% between 2016 and 2024. Food service equipment is widely adopted in the commercial food and beverages industry. Now days, people prefer nutritious and hygienic food. This has headed to a great opportunity in the foodservice equipment industry. Restaurant owners are trying to incorporate innovative equipment to meet the ever growing demand for food.

Increasing adoption of digitalization and development of modernized products equipped with internet connectivity is likely to drive the food service equipment market. Moreover, surge in number of hotels, restaurants, food joints and growing awareness of energy consumption is also anticipated to boost the growth of the market. However, high maintenance cost and equipment cost may hinder the growth of the market. Untouched markets in emerging economies would provide opportunity in the upcoming years.

The food service equipment market has been segmented into type, washware equipment and geography. By type is further segmented into refrigerator, kitchen purpose storage, food holding & serving, ware washing and others. Washware

equipment is further segmented into dish washers, booster heaters, utensil washer, disposers, and others.

Geographically, the food service equipment market is bifurcated into North America, Europe, Asia-Pacific and Rest of the World (RoW). The U.S., Mexico and Canada are covered under North America wherein Europe covers United Kingdom, Germany, Russia and others. Asia-Pacific covers China, India, Japan, and others. Rest of the world (RoW) covers South America, Middle East and Africa.
