## **Abstracts**

As per the latest report published by Variant Market Research, Global Usage-Based Insurance Market is estimated to reach \$252.8 Billion by 2024; growing at a CAGR of 38.1% from 2016 to 2024. Usage-based insurance (UBI) also termed as pay-as-you-drive, pay-how-you-drive, and manage-how-you-drive, is a telematic based insurance, where premiums are based on the driving performance of the customers, comprising type of vehicle used, measured against time, distance, and place. They pose various advantages promoting the usage-based insurance market, such as more responsible and less unnecessary driving causing to social and environmental benefits, potential cost-savings for customers, and commercial reimbursements to the insurance company from better alignment of insurance with actual risk.

Lower risk associated with accidents and vehicle theft possibilities, enhancing customer loyalty, and reducing claims costs are the primary factors that drives the growth of global usage-based insurance market. Although, privacy concerns, and high telematics installation cost are the major restraints which are limiting the market growth.

Nonetheless, advancement in technology to make process easier coupled with reduced service rate would unfold attractive business opportunities for the market in the given forecast timeframe.

Type, technology, and geography, are the major segments considered in the global usage-based insurance market. On the basis of type, the classification is given as pay as you drive (PAYD), pay how you drive (PHYD), and manage how you drive (MHYD). On the basis of technology, the categorization comprises OBD-II, hybrid, smartphone, and black box.
