Abstracts

VIETNAM BRICK, TILES AND ASHLAR PAVING STONE INDUSTRY

Currently, Vietnam's brick, tile and paving stone industry accounts for a relatively low proportion in the structure of construction materials industry and is quite regional in nature. In Q1/2019, the clay and kaolin exploitation volume increased by 51% compared to the same period of 2018; the situation of illegal clay exploitation took place very complicated in many localities throughout the country such as Kon Tum, Ha Tinh, Tra Vinh

The natural stone exploitation volume in Q1/2019 is estimated to decrease by 35.1% compared to the same period of 2018 due to the situation that quarries with high exploitation output are expired and the Government is currently tightening new stone mining licenses from now until 2020.

In Q1/2019, the baked clay bricks production accounted for 70% of the total brick volume nationwide in 2018, decreased by 2% compared to 2017 due to the trend of shifting to using unburnt bricks, leading to the large inventory of burnt clay bricks, businesses with slow consumption should gradually reduce production.

The import turnover of bricks and tiles in Q1/2019 decreased by 15.3% compared to 2018 due to the low domestic demand but the relatively abundant supply. The tile exports in Q1/2019 were estimated to rise 10.4% over the same period in 2018. The US-China trade war is an opportunity for Vietnam to boost export of ceramic tiles to the US market.

The export turnover of paving stones in Q1/2019 was estimated to decrease by 33%

compared to the same period in 2018, but Vietnam's export turnover was still very low compared to production capacity due to the low domestic stone production quality. The import turnover of paving stones decreased slightly by 3.4% compared to 2018.

Contents

ABBREVIATIONS

EXECUTIVE SUMMARY

1. BUSINESS ENVIRONMENT

- 1.1 Macroeconomic situation
- 1.2 Legal framework
- 1.3 Trade agreements

2. MARKET OVERVIEW

- 2.1 Definition and classification
- 2.2 Production Process
- 2.3 Production Technology

3. WORLD MARKET OF PAVING BRICKS, TILES, STONES

- 3.1 Materials
- 3.2 Production Consumption
- 3.3 Import Export
- 3.4 Ceramic tiles industry in some typical countries
- 3.5 Some key players in the industry

4 VIETNAM MARKET OF PAVING BRICKS, TILES AND STONES

- 4.1 History of formation and development
- 4.2 Value chain of the industry
- 4.3 Materials
- 4.4 Production Consumption
- 4.5 Competitive Analysis
- 4.6 Import Export
- 4.7 Inventory

5 INDUSTRY RISK

6 OUTLOOK AND FORECAST

- 6.1 Industry development planning
- 6.2 Outlook
- 6.3 Forecast

7 ENTERPRISE ANALYSIS

- 7.1 Enterprise introduction
- 7.2 Financial analysis

8 APPENDIX OF FINANCIAL STATEMENT

List Of Tables

LIST OF TABLES

- Table 1: Import duties applied to ceramic products are based on trade agreements signed by Vietnam
- Table 2: Characteristic comparison between ceramic and granite brick
- Table 3: Characteristic comparison between Marble and Granite stone
- Table 4: Comparison between single-firing and double-firing technologies
- Table 5: Top largest natural stone importers of China, 2016 2017 (Unit: USD million)
- Table 6: Top largest natural stone exporters of China, 2016 2017
- Table 7: Production criteria in China, 2010 2017
- Table 8: Top 10 leading tile manufacturers in the world, 2017
- Table 9: Localities with the largest reserves of stone in Vietnam
- Table 10: Cola prices after TKV (effective from 11/8/2016)
- Table 11: Comparison between the use of coal and CNG
- Table 12: Production capacity of some large enterprises in the industry, 2016
- Table 13: Paving tiles production enterprises until, 2017
- Table 14: Top 10 largest tile manufacturers in Ho Chi Minh City
- Table 15: Some factories produce unbaked bricks in the North
- Table 16: Granite tile selling price of some enterprises in the industry, 2017 2018
- Table 17: Comparison among some large tile manufacturers in the industry
- Table 18: Planning on demand for building materials to 2020
