Abstracts

VIETNAM COFFEE MARKET

The world coffee export volume has continuously changed over the years. The world coffee export volume in the 2017/2018 crop was estimated to decrease by 1.85% compared to the previous crop and increase again in the 2018/2019e crop, reaching 4.23%. Meanwhile, the demand for coffee in the world increased, the world coffee consumption in the 2018/2019 crop was estimated at 165.2 million bags.

According to USDA's report, in the 2018/19 crop, Vietnam's coffee production was expected to continue to grow because in the previous crop, the weather was relatively stable, the rainfall was enough to supply the crop, helping the coffee production increase strongly again. The domestic coffee consumption during 2012/2013 - 2018/2019e grew with a CAGR of 7.9%.

The total volume of Vietnam imported coffee in 2017/18 was estimated at about 1.06 million bags. Vietnam is currently importing a small amount of fresh coffee beans and roasted coffee beans, brewed coffee from China, Laos, Indonesia, Brazil, America ...

In Q1/2019, it was estimated that the coffee exports declined by 13.3% in volume and 21.9% in value compared to the same period last year. Vietnam is the largest Robusta coffee exporter in the world but mainly in raw form, which does not bring high added value.

Contents

ABBREVIATIONS

EXECUTIVE SUMMARY

1. BUSINESS ENVIRONMENT

- 1.1 Macroeconomic situation
- 1.2 Legal framework
- 1.3 Impact of trade agreements

2. WORLD COFFEE MARKET

- 2.1 Value chain
- 2.2 Production
- 2.3 Consumption
- 2.4 Export and Import
- 2.5 Inventory
- 2.6 Price movement
- 2.7 Situation in some typical countries

3. VIETNAM COFFEE MARKET

- 3.1 Types of coffee produced in Vietnam
- 3.2 Process and production technology
- 3.3 Production
- 3.4 Consumption
- 3.5 Export and Import
- 3.6 Inventory
- 3.7 Price
- 3.8 Distribution system and payment methods
- 3.9 Competitive Analysis

4. RISK OF VIETNAM COFFEE MARKET

5. PLANNING

6. PROSPECTS AND FORECASTS

7. ENTERPRISE ANALYSIS

Financial index
