Abstracts

VIETNAM ELECTRICITY MARKET

Vietnam electricity market is still exclusive when Vietnam Electricity (EVN) is the unit holding monopoly on regulating, buying electricity, transmitting and distributing electricity. Generating power is the only segment that other units apart from EVN take part in due to the high-investment characteristics. Over the last 10 years, Vietnam electricity industry added new supply sources continuously in order to keep pace with the dramatic demand growth rate. Accumulated in the first 3 months of 2019, the total supply was estimated to increase 9.58% over the same period in 2018.

In Q1/2019, the volume of imported electricity accounted for 1.46% of the total electricity supply, increasing by 12,9% compared to the same period of 2018. The demand for electricity in Vietnam is very enormous in short term, mid-term and long term. According to EVN's calculation, in order to meet the economic development demand with the growth rate from 7.5% to 8% and reach the goal to 2020 that Vietnam basically becomes an industrial country, over the next 20 years, the electricity demand will increase by 15% - 17%/year.

The 500kV North - South ultrahigh-voltage grid system must continuously transmit high capacity from the North and the Central to the South, causing power loss. In Q1/2019, EVN's powder loss was 6.57%, 0.13 % better than 2019's plan (6,7%).

Electricity price in Vietnam is quite low compared to other countries in the Asia - Pacific region. However, compared to per capita GDP, the electricity price in Vietnam is still high. This is considered as one of the reasons that makes the Government issue cross subsidies. On 20/03/2019, The Ministry of Industry and Trade officially adjusted the electricity price up to 8.63%, which was equivalent to 1,864.44 VND.

Contents

ABBREVIATIONS

EXECUTIVE SUMMARY

1. BUSINESS ENVIRONMENT

- 1.1 Macroeconomic situation
- 1.2 Legal framework

2. INDUSTRY OVERVIEW

- 2.1 Situation of global electricity industry
 - 2.1.1 Demand and supply for electricity
- 2.2 Situation of Vietnam electricity industry
 - 2.2.1 History of Vietnam electricity industry
 - 2.2.2 Value chain of the industry
 - 2.2.3 Electricity generation
 - 2.2.4 Electricity consumption
 - 2.2.5 Electricity price
- 2.3 Issues in energy industries development
 - 2.3.1 Existing
 - 2.3.2 Challenges
- 2.4 Planning and forecasting
 - 2.4.1 Planning

3. BUSINESS ANALYSIS

- 3.1 Typical companies of electricity industry
- 3.2 Business performance indicators
- 3.3 Financial indicators
- 3.4 Payment indicators

List Of Tables

LIST OF TABLES

Table 1: Power projects operation in 2019

Table 2: Advantages and disadvantages of hydroelectricity and thermal electricity comparison

Table 3: Electricity generating technology from coal (Thermal power)

Table 4: Commercial electricity according to the distribution companies (Million kWh), 2016 – 2018

Table 5: Electricity supply reliability criteria, 2017-2018

Table 6: Vietnam's getting electricity indicator, 2015 - 2019

Table 7: Getting electricity indicator of countries participating in CPTPP, 2018*

Table 8: Avoided cost tariff applied to small and medium-sized hydroelectric plants in 2018

Table 9: Average electricity wholesale price of EVN for other electricity corporations in 2018

Table 10: Electricity price in 6 degree

List Of Figures

LIST OF FIGURES

- Figure 1: Monthly CPI fluctuations, 1/2015 - 3/2019
- Figure 2: GDP growth rate by quarter, 2016-2019
- Figure 3: VND/USD exchange rates, 1/2013-3/2019
- Figure 4: FDI attraction by industry, Q1/2019
- Figure 5: Contribution to electricity production and distribution in GDP, 2012 – 3T/2019
- Figure 6: World electricity production volume 2009-2017
- Figure 7: Structure of world electricity volume, 2017e
- Figure 8: Structure of electricity supply according to recourse, 2016 - 2017
- Figure 9: World's top largest electricity producing countries, 2016 - 2017
- Figure 10: Electricity production volume in some countries, 2006 - 2017
- Figure 11: Global electricity consumption, 2008 - 2017
- Figure 12: Top 10 most electricity consuming countries, 2017
- Figure 13: Top largest electricity exporters, 2017
- Figure 14: Total supply of electricity, 2010 – 3T/2019
- Figure 15: Proportion of electricity generation by supplier, 2017
- Figure 16: Structure of electricity production by sources of materials, 2012 – 2018
- Figure 17: Distribution of main power plants
- Figure 18: Electricity import from China, 2010 – 3T/2019
- Figure 19: Electricity consumption per capita of Vietnam, 2000-2018e
