Abstracts

Gross domestic product (GDP) for the whole quarter 1/2020 increased by 3.82% over the same period last year, which is the lowest increase in all the first quarters of the period 2011 - 2020. In the context of complicated Covid-19 epidemic However, Vietnam has sacrificed its economic benefits to prevent and stamp out epidemics as a top priority. The fact that Vietnam's economy continues to maintain and not fall into negative growth is a good sign. In the first 3 months of 2020, IIP of the whole economy increased by 5.28% over the same period last year. Although the IIP in January was seriously reduced due to the impact of the Covid-19 epidemic, by February and March the IIP increased again ...
