Abstracts

VIETNAM PAPER AND PAPER INDUSTRY

According to data published by the Global Pulp and Paper Council, the global pulp consumption reached x.xx million tons in March 2019. The mass investment in new production lines in the period of 2016-2019 forecasts a boom in the supply of pulp in the future market.

The paper industry was born quite early in Vietnam, in 1912. In the past few years, the paper industry has grown steadily but relatively slowly, failing to meet the domestic demand for quality and quantity. The paper production in the first 9 months of the year increased xx% over the same period last year due to the gradually more stable supply of pulp than previous years.

In the period of 2011-2018, the paper consumption of all kinds in Vietnam market increased rapidly with an average annual growth rate of 9.8%. In the first 9 months of 2019, thanks to a good growth in paper production, the paper consumption also grew positively, which was estimated to increase by 15.5% compared to the same period last year. The group of packaging paper grew strongly, the total consumption of packaging paper in Vietnam in 9 months of 2019 accounted for 77.2% of the total paper consumption of all kinds, up 20.0% over the previous year.

Currently, Vietnam paper industry is still primarily serving the domestic market, and the exports are very few. Vietnam's total paper export turnover continuously grew in the period 2011-2018 with a CAGR of 13.0%. The export turnover of paper and paper products in Q4/2019 rose 8.5% over the same period in 2018.

Contents

Abbreviations

Executive Summary

1. BUSINESS ENVIRONMENT

1.1. Macroeconomic situation

1.2. Legal framework

1.3. Impact of trade agreements

2. THE WORLD PULP AND PAPER INDUSTRY

2.1. Pulp

2.1.1. Production

2.1.2. Consumption

2.1.3. Import – Export

2.1.4. Price movement of some types of pulp

2.2. Paper

2.2.1. Production

2.2.2. Consumption

2.2.3. Import – Export

2.2.4. Price movement of some types of paper

2.3. The pulp and paper market in some countries

3. THE PULP AND PAPER INDUSTRY IN VIETNAM

3.1. History of formation and development

3.2. Value chain of the industry

3.3. Process of production

3.4. The scale and features of the industry

3.5. Pulp

3.5.1. Input materials

3.5.2. Production

3.5.3. Consumption

3.5.4. Import

3.6. Paper

3.6.1. Production

3.6.2. Consumption

- 3.6.3. Export
- 3.6.4. Import
- 3.6.5. Inventory

4. OVERVIEW OF THE INDUSTRY

- 4.1. Risk analysis
- 4.2. Competitiveness analysis
- 4.3. Planning
- 4.4. Forecasts

5. ENTERPRISE ANALYSIS

- 5.1. Introduction of enterprises
- 5.2. Indicators of business results
- 5.3. Indicators of finance
- 5.4. Indicators of performance efficiency

6. APPENDIX

List Of Tables

LIST OF TABLES

- Table 1: Energy rated consumption for paper products until the end of 2020
- Table 2: Vietnam's average tariff (%) in ACFTA
- Table 3: Tariff commitments in WTO
- Table 4: Vietnam's average tariff (%) in AKFTA
- Table 5: Pulp price made from imported wood into Asia market
- Table 6: Pulp price made from recycled paper in major port of Asia
- Table 7: Top 10 countries that have the highest paper export value, 2018
- Table 8: Top 10 countries that have the highest paper import value, 2018
- Table 9: Price of newspaper and printing paper in some countries of Asia
- Table 10: Price of advanced printing paper and packaging paper in some countries of Asia
- Table 11: Top 10 countries that have the highest pulp export value to the US, 2018
- Table 12: Top 10 largest paper companies over the world, 2018
- Table 13: Some type of wood suitable for making paper
- Table 14: Paper and pulp plants that have capacity of over 100,000 tons/year
- Table 15: Important investment projects in paper industry
- Table 16: Portfolio of investment projects by period
- Table 17: Criteria of designed capacity
- Table 18: Criteria of output quantity
- Table 19: Regions of growing material trees for paper production
- Table 20: Typical enterprises in paper and pulp industry, 2017
