Abstracts

Saudi Arabia faces a diverse range of domestic and regional security threats, and coupled with the country's position as a leading energy supplier worldwide, the Kingdom's defence capabilities carry added importance. Visiongain has calculated that in 2012, Saudi Arabian defence spending will total \$50.83bn.

Whilst defence and security markets in Europe and the US contract due to pressure to reduce public spending, and cancellations and delays to defence programmes continue to curtail opportunities; Saudi Arabia's position at the heart of the Middle East has meant that defence spending continues to be a top government priority.

The report contains 102 tables, charts and graphs that add visual analysis in order to explain developing trends within the Saudi Arabian defence market. Visiongain provides forecasts for the period 2012-2022 in terms of value (US\$) for the Saudi Arabian defence budget and for Air, Land and Naval systems sectors, as well as for 16 submarkets of the Saudi defence market. The report also provides profiles of 20 leading companies operating within the Saudi Arabian Defence market.
