Date: March 2019

Pages: 75

Price: US\$ 2,199.00 (Single User License)

ID: 2BE94371ADAEN

## Abstracts

The global demand for Ventilator Associated Pneumonia (VAP) treatment options is expected to report strong growth over the medium to long term future driven by consumption in major markets. Strong growth prospects of drugs for Ventilator Associated Pneumonia (VAP) are driving leading companies to invest their resources on the pipeline.

Companies quickly advancing their drug candidates to advanced phases will evolve as top performers. However, challenges of completing clinical trials on schedules and inadequate financial support are holding some of the Ventilator Associated Pneumonia (VAP) pipeline companies from advancing their products.

Ventilator Associated Pneumonia (VAP) Report Description

The H1-2019 pipeline review report on Ventilator Associated Pneumonia (VAP) is a comprehensive study on drug candidates across different phases worldwide. This report evaluates each of the pipeline products in terms of their current status, regulatory progress and expected phase completion date.

The Ventilator Associated Pneumonia (VAP) pipeline guide presents information on all active drugs currently being developed for Ventilator Associated Pneumonia (VAP). The research work provides details of active therapeutic candidates in different phases including discovery, research, pre-clinical, phase I, Phase II, Phase III and pre-registration phases.

Details of current status, R&D progress and latest developments for every Ventilator Associated Pneumonia (VAP) pipeline candidate are analyzed.

Further, current phase of development, mechanism of action, special designations such as orphan drug status, fast track designation, grants awarded, etc are presented for all

## Ventilator Associated Pneumonia (VAP) drug candidates.

Drug development companies, collaborators, originating companies, license providers and universities participating in the Ventilator Associated Pneumonia (VAP) product pipeline are provided. Company overview, snapshot and developments are provided for all participating companies.

The report assists in identifying potential upcoming companies and drugs in Ventilator Associated Pneumonia (VAP) pipeline market along with progress of each drug. It also enables users to formulate effective strategies to stay ahead of competition.

The publisher has developed the report based on robust methodology for assessing pharmaceutical drugs, market sizes and sound forecast tools. All our research reports are provided through intense and repetitive primary and secondary research methods. The report is presented in a user-friendly format and presents clear and actionable insights.

Scope of Ventilator Associated Pneumonia (VAP) pipeline report includes-

- Snapshot of pipeline detailing number of active compounds, mergers and acquisitions, phase wise compounds, target areas, mechanism of action, trials etc

- Phase wise pipeline compounds

- Company wise list of pipeline compounds

- Mechanism of Action wise pipeline compounds

For each pipeline product, the following details are provided-

- Snapshot (Drug, , Phase, Co Developer, Originator, Synonym, Orphan Drug Status, Type of Molecular Entity, Area)

- Current status of development

- Drug overview

- Mechanism of Action

## Pre-clinical and Clinical Trials

### REASONS TO BUY

The report is designed to help industry executives promote the success and continued growth of their organizations

Get clear understanding of the entire Ventilator Associated Pneumonia (VAP) pipeline, with details on active projects

Stay ahead of the competition through comprehensive knowledge of Ventilator Associated Pneumonia (VAP) pipeline progress

Get in detail information of each product with updated information on each project along with key milestones

Gain clear insights into the market through in-depth strategic analysis review

Know the list of companies participating in global Ventilator Associated Pneumonia (VAP) pipeline along with progress of each of the company's products and information on associations/collaborations/licensing data

Get trial information for each pipeline product under development

Understand the pipeline structure in terms of mechanism of Action, phase and company

The report will be delivered in 2 working days.

## Contents

### **GLOBAL VENTILATOR ASSOCIATED PNEUMONIA (VAP) PIPELINE OVERVIEW**

Key Findings, 2019  
Disease Overview  
Report Guide and Research Methodology

### **EXECUTIVE SUMMARY**

Ventilator Associated Pneumonia (VAP) Drugs under active development, H1 @2019  
Pipeline Drugs in Early Stage of Development (Pre-clinical, Discovery, Phase 1 and Phase 2)  
Pipeline Drugs in Advanced Stage of Development (Phase 3, Pre-registration)  
Companies involved in Ventilator Associated Pneumonia (VAP) pipeline, H1 @2019  
Mechanism of Action wise Ventilator Associated Pneumonia (VAP) Pipeline Candidates
