Abstracts

The Digestive Health Products market size is forecast to increase at a Compounded Annual Growth Rate (CAGR) of 7.3% over the forecast period from 2021 to 2028. The market report analyses Digestive Health Products companies, market size outlook across types, applications, countries along with competitive strategies, Digestive Health Products trends, drivers, opportunities and market developments. The base year for the Digestive Health Products study is 2020.

The global Digestive Health Products market is poised to register optimistic growth rates throughout 2021 and 2022 as positive momentum builds in the world economy, though some differences remain among geographies. The pace of change will accelerate in the Digestive Health Products industry and companies quickly re-aligning their strategies will emerge stronger from the unprecedented changes. However, the COVID-19 pandemic remains a major threat for most Digestive Health Products market outlook in addition to concerns of inflation, supply-chain disruptions, and weak consumer demand.

Global Digestive Health Products Market%li%Post COVID-19 Recovery Scenarios and Impact Analysis

The COVID-19 pandemic had a significant impact on the regional and country-level Digestive Health Products markets worldwide. The report presents three outlook scenarios for the global Digestive Health Products market size for 2021 and 2022.

Low Growth: Economic recovery will be slow, supply-chain disruptions continue to pose challenges, and consumer demand remains weak.

Medium Growth: Economic recovery will be fast, supply-chain disruptions continue, and consumer demand recovers moderately.

High Growth: Rapid economic recovery, supply-chain disruptions handled, and consumer demand will be strong

The outlook for economic progress across most countries is optimistic for 2021. Assuming localized recurrences of the Coronavirus, economic growth accelerates in the second half of 2021, and consumption returning to pre-pandemic levels in 2021, Chinese real GDP growth is estimated at 7.9% and 8.4% in 2021 and 2022 respectively. Similarly, the US is likely to register 4% growth in 2021 and 3% in 2022 while the European real GDP growth is estimated at 2.7% for 2021 and 5.1% for 2022.

Digestive Health Products Market Driving Factors, Restraints, and Opportunities

The global Digestive Health Products market has significant market potential and offers diverse opportunities across countries. Strategic and financial investors are racing to capture the strong potential in the industry. In this report, we examine the main Digestive Health Products trends that will likely influence the future of Digestive Health Products markets. The Digestive Health Products report also identifies promising investment opportunities and offers a view of how players might successfully pursue them. The pandemic led to a widening divide between rural and urban communities, and companies must overcome challenges in the Digestive Health Products industry. Acting with determination and speed is one of the critical success factors in the near to medium future. Detailed analyses of challenges faced by Digestive Health Products companies operating in the market are included in the report.

Digestive Health Products Market Segmentation Analysis and Outlook

The report scope encompasses major Digestive Health Products types and major Digestive Health Products applications worldwide and presents a detailed analysis and outlook of each specific Digestive Health Products type and application. Forecasts of individual types and applications are provided at the global level and also analyzed for North America, Europe, Asia Pacific, Latin America, Middle East, and Africa. In each region, the largest and fastest-growing market types and applications are analyzed. The

base year is 2020 and the forecast period is from 2021 to 2028 for all segments.

Geographic Analysis: Asia Pacific countries are among the fastest-growing markets globally

We hold an optimistic outlook for both the consumption and market size outlook for Asia Pacific countries. With most countries in the Asia Pacific witnessing their currencies appreciate against the US dollar over 2021, the short-term outlook remains robust across markets. Further, over the long run, driven by attractive demographics profile in the Asia Pacific and an increasing number of middle-to-upper income households, countries in the Asia Pacific Digestive Health Products market will register a strong growth outlook throughout the forecast period. Consumers are also quickly re-prioritizing their spending away from essentials, which will support the Digestive Health Products market growth in the Asia Pacific.

In addition to the Asia Pacific, the report also analyzes the short-term and long-term outlook of North America Digestive Health Products market, Europe Digestive Health Products market, Latin America Digestive Health Products market, Middle East, and Africa Digestive Health Products markets. Countries covered in the scope of the Digestive Health Products study include United States, Canada, Mexico, Brazil, Argentina, Germany, United Kingdom, France, Spain, Italy, China, India, Japan, South Korea, Middle East, Africa, and others.

Competitive Landscape: Digestive Health Products Market Companies

The global Digestive Health Products market is facing intense competitive conditions as more companies continue to target specific customer bases. The recovery from the pandemic is not uniquely spread across geographies and accordingly, most companies are opting for focused strategies to localized market conditions since the start of the pandemic. For instance, the majority of European consumers continue to emphasize seeking brands with strong purpose and good values while there has been a fundamental shift from essential goods in some Asia Pacific markets. The report analyses five leading Digestive Health Products companies including their business operations, SWOT Analysis, and financial profile.
