Abstracts

The Food Additives market size is forecast to increase at a Compounded Annual Growth Rate (CAGR) of 6% over the forecast period from 2021 to 2028. The market report analyses Food Additives companies, market size outlook across types, applications, countries along with competitive strategies, Food Additives trends, drivers, opportunities and market developments. The base year for the Food Additives study is 2020.

The global Food Additives market is poised to register optimistic growth rates throughout 2021 and 2022 as positive momentum builds in the world economy, though some differences remain among geographies. The pace of change will accelerate in the Food Additives industry and companies quickly re-aligning their strategies will emerge stronger from the unprecedented changes. However, the COVID-19 pandemic remains a major threat for most Food Additives market outlook in addition to concerns of inflation, supply-chain disruptions, and weak consumer demand.

Global Food Additives Market%li%Post COVID-19 Recovery Scenarios and Impact Analysis

The COVID-19 pandemic had a significant impact on the regional and country-level Food Additives markets worldwide. The report presents three outlook scenarios for the global Food Additives market size for 2021 and 2022.

Low Growth: Economic recovery will be slow, supply-chain disruptions continue

to pose challenges, and consumer demand remains weak.

Medium Growth: Economic recovery will be fast, supply-chain disruptions continue, and consumer demand recovers moderately.

High Growth: Rapid economic recovery, supply-chain disruptions handled, and consumer demand will be strong

The outlook for economic progress across most countries is optimistic for 2021. Assuming localized recurrences of the Coronavirus, economic growth accelerates in the second half of 2021, and consumption returning to pre-pandemic levels in 2021, Chinese real GDP growth is estimated at 7.9% and 8.4% in 2021 and 2022 respectively. Similarly, the US is likely to register 4% growth in 2021 and 3% in 2022 while the European real GDP growth is estimated at 2.7% for 2021 and 5.1% for 2022.

Food Additives Market Driving Factors, Restraints, and Opportunities

In this report, we examine the main Food Additives trends that will likely influence the future of Food Additives markets. The Food Additives report also identifies promising investment opportunities and offers a view of how players might successfully pursue them. The pandemic led to a widening divide between rural and urban communities, and companies must overcome challenges in the Food Additives industry. Acting with determination and speed is one of the critical success factors in the near to medium future. Detailed analyses of challenges faced by Food Additives companies operating in the market are included in the report.

Food Additives Market Segmentation Analysis and Outlook

The report scope encompasses major Food Additives types and major Food Additives applications worldwide and presents a detailed analysis and outlook of each specific Food Additives type and application. Forecasts of individual types and applications are provided at the global level and also analyzed for North America, Europe, Asia Pacific, Latin America, Middle East, and Africa. In each region, the largest and fastest-growing market types and applications are analyzed. The base year is 2020 and the forecast period is from 2021 to 2028 for all segments.

Geographic Analysis: Asia Pacific countries are among the fastest-growing markets globally

We hold an optimistic outlook for both the consumption and market size outlook for Asia Pacific countries. With most countries in the Asia Pacific witnessing their currencies appreciate against the US dollar over 2021, the short-term outlook remains robust across markets. Further, over the long run, driven by attractive demographics profile in the Asia Pacific and an increasing number of middle-to-upper income households, countries in the Asia Pacific Food Additives market will register a strong growth outlook throughout the forecast period. Consumers are also quickly re-prioritizing their spending away from essentials, which will support the Food Additives market growth in the Asia Pacific.

In addition to the Asia Pacific, the report also analyzes the short-term and long-term outlook of North America Food Additives market, Europe Food Additives market, Latin America Food Additives market, Middle East, and Africa Food Additives markets. Countries covered in the scope of the Food Additives study include United States, Canada, Mexico, Brazil, Argentina, Germany, United Kingdom, France, Spain, Italy, China, India, Japan, South Korea, Middle East, Africa, and others.

Competitive Landscape: Food Additives Market Companies

The global Food Additives market is facing intense competitive conditions as more companies continue to target specific customer bases. The recovery from the pandemic is not uniquely spread across geographies and accordingly, most companies are opting for focused strategies to localized market conditions since the start of the pandemic. For instance, the majority of European consumers continue to emphasize seeking brands with strong purpose and good values while there has been a fundamental shift from essential goods in some Asia Pacific markets. The report analyses five leading Food Additives companies including their business operations, SWOT Analysis, and financial profile.
