Abstracts

African Trypanosomiasis Infection Drug Development Pipeline Study, H2 2018 is the latest infectious disease publication with comprehensive information of African Trypanosomiasis Infection pipeline products.

DISEASE OVERVIEW

African Trypanosomiasis infection is spread through *Clostridium tetani* bacteria, which is present in the form of spores in the environment and develops as bacteria upon entering into human body. Painful muscle contractions are the primary symptom and the disease is also referred to as 'lockjaw' as jaw muscles are tightened in tetanus infected patient.

Different forms of tetanus include - general, local and cephalic tetanus. Sudden spasms of the vocal cords, fractures, infections, aspiration pneumonia are the major complications of the disease.

Despite low costs of treatment, tetanus is rapidly progressing infectious disease, causing mortality. Fourteen companies are currently developing vaccines and treatment options against tetanus infections. The companies in global tetanus pipeline include - Beijing Minhai Biotechnology Co Ltd, BIKEN Corporation, Biological E Ltd, Cadila Healthcare Ltd, Daiichi Sankyo Company, GC Pharma - Korea, GlaxoSmithKline Plc, Indian Immunologicals Ltd, LG Chem Ltd, Olymvax Biopharmaceuticals Inc, Panacea Biotech Ltd, Sanofi, Serum Institute of India Ltd and Wockhardt Ltd.

REPORT DESCRIPTION

The African Trypanosomiasis Infection pipeline guide presents complete overview of drugs currently being developed for African Trypanosomiasis Infection. The pipeline review provides insights into different therapeutic candidates in preclinical, research, discovery, NDA/IND, pre registration, phase 1, phase 2, and phase 3 trials).

Drug development phase, current stage, mechanism of action, route of administration, orphan drug/ fast track/ other designations, drug class are provided for each of the African Trypanosomiasis Infection pipeline candidate.

Research and Development progress along with latest news related to each of the African Trypanosomiasis Infection pipeline candidates is included.

Major companies participating in therapeutic development of African Trypanosomiasis Infection are included in this pipeline report. Company wise pre-clinical and clinical products along with details of drug originator, co-developers/ licensors are provided.

Amid strong interest for cure of African Trypanosomiasis Infection from companies and institutes, the current research work serves as a reliable and comprehensive source of information of global African Trypanosomiasis Infection clinical and pre-clinical products.

The report assists in identifying potential upcoming companies and drugs in African Trypanosomiasis Infection pipeline market along with progress of each drug. It also enables users to formulate effective strategies to stay ahead of competition.

Information in the report is sourced from our proprietary platform, built through extensive primary and secondary research methodology. Data is presented in user friendly and ready to use format.

SCOPE OF AFRICAN TRYPANOSOMIASIS INFECTION PIPELINE REPORT INCLUDES

Panorama of African Trypanosomiasis Infection pipeline markets including statistics on therapeutic drugs and companies involved

African Trypanosomiasis Infection Pipeline candidates across various development phases including both pre-clinical, discovery and clinical stages

are covered

African Trypanosomiasis Infection pipeline candidates across various 'Mechanism of Actions' are also presented in the study

Overview of companies participating in African Trypanosomiasis Infection pipeline with short introduction to their businesses and pipeline projects

For each pipeline candidate, drug overview, details of mechanism of Action (MOA), originator, co-developer and licensee are provided.

Research and Development progress and trial details, results wherever available, are also included in the pipeline study

The pipeline study provides information on all ongoing and active projects and also presents the recent news associated with African Trypanosomiasis Infection pipeline therapeutics

REASONS TO BUY

Get clear understanding of the entire African Trypanosomiasis Infection pipeline, with details on active projects

Get in detail information of each product with updated information on each project along with key milestones

Know the list of companies participating in global African Trypanosomiasis Infection pipeline along with progress of each of the company's products and information on associations/collaborations/licensing data

Get trial information for each pipeline product under development

Understand the pipeline structure in terms of mechanism of Action, phase and company

Contents

I. KEY FINDINGS

1. Companies Investing in African Trypanosomiasis Infection Pipeline include
 - Number of Companies with African Trypanosomiasis Infection projects in pre-clinical Development
 - Number of Companies with African Trypanosomiasis Infection projects in Clinical Development
 - African Trypanosomiasis Infection Pipeline Companies based in Americas
 - African Trypanosomiasis Infection Pipeline Companies based in Europe
 - African Trypanosomiasis Infection Pipeline Companies based in Asia Pacific
 - African Trypanosomiasis Infection Pipeline Companies based in Rest of the World
2. Pipeline Candidates include
 - African Trypanosomiasis Infection Pipeline Agents in Pre- clinical/Discovery stage of Development
 - African Trypanosomiasis Infection Pipeline Agents in Clinical Development stage
 - African Trypanosomiasis Infection Pipeline Therapeutic Compounds received special status
 - Mechanism of Action of most pipeline Drugs
 - Small molecules among the African Trypanosomiasis Infection Pipeline agents

II. INSIGHTS INTO AFRICAN TRYPANOSOMIASIS INFECTION PIPELINE

1. Disease Overview
 - Introduction to African Trypanosomiasis Infection
 - Symptoms and Causes of African Trypanosomiasis Infection
 - Treatment or Prevention Options for African Trypanosomiasis Infection
 - Other Details
2. Phase wise Pipeline Compounds
 - African Trypanosomiasis Infection Pipeline Pre- Clinical/Discovery stage Drugs
 - African Trypanosomiasis Infection Pipeline Phase 1 stage Drugs
 - African Trypanosomiasis Infection Pipeline Phase 2 stage Drugs
 - African Trypanosomiasis Infection Pipeline Phase 3 stage Drugs
 - African Trypanosomiasis Infection Pipeline Pre-Registration stage Drugs
3. Company wise African Trypanosomiasis Infection Pipeline Compounds
4. African Trypanosomiasis Infection Pipeline by Mechanism of Action

III. AFRICAN TRYPANOSOMIASIS INFECTION PIPELINE COMPOUND DETAILS

Acoziborole
tropical disease therapeutics
neglected tropical disease therapeutics
GNF 6702
MS-08
fexinidazole
MDL 73811
protozoal infections therapeutics
TRYPANOSOMATIDIC therapies
TRP-012

Drug Details

1. Snapshot

Name of the Therapeutic Agent
Originator
Developing Company
Co-Developer/License Partner
Orphan Drug/Fast Track/Designation
Development Phase

2. Drug Overview

3. Mechanism of Action

4. Current Status

5. Clinical Trial Details

IV. AFRICAN TRYPANOSOMIASIS INFECTION PIPELINE COMPANY BRIEFS

Anacor Pharmaceuticals
Astellas Pharma;
DNDi
Genomics Institute of the Novartis Research Foundation
MediSynergics LLC
Sanofi
Scynexis Inc
Synstar Japan
Tydock Pharma
Vyera Pharmaceuticals

V. LATEST NEWS AND DEVELOPMENTS IN GLOBAL AFRICAN TRYPANOSOMIASIS INFECTION PIPELINE MARKET

VI. APPENDIX

1. Publisher's Expertise
2. Research Methodology
3. Contact Information
