Abstracts

The AI in Information and Communications Technology market is a large and high-potential growth industry. In 2023, the market is poised to register positive year-on-year growth over 2022. Further, the AI in Information and Communications Technology market size maintains a super-linear growth trajectory, registering continuous expansion from 2023 to 2030.

As we enter the late half of 2023, the AI in Information and Communications Technology industry is poised for significant growth and transformation. The “AI in Information and Communications Technology Market Size, Share, Trends, Growth, Outlook, and Insights Report, 2023- Data Forecasts by Type, Application, Segments, Countries, and Companies, 2018- 2030” report details the definition and advantages of AI in Information and Communications Technology.

Overview of the AI in Information and Communications Technology Industry in 2023

The accelerating development of the industry is driven by a widening application base, R&D investment in new product development, competitive strategies focusing on expanding into niche segments, and potential growth prospects for AI in Information and Communications Technology Companies in developing countries.

The AI in Information and Communications Technology Insights Report provides key market size and share outlook, short-term and long-term trends, potential opportunities,

analytical models, current market conditions, scenario analysis, post-COVID analysis, competitive landscape, company profiles, and market news and developments.

AI in Information and Communications Technology Market Size, Share, and Trend Analysis

The global AI in Information and Communications Technology market plays a major role in the global electronics and semiconductors industry. The report provides a comprehensive and in-depth analysis of different segments across the industry.

Further, potential types, applications, products, and other AI in Information and Communications Technology segments are analyzed in the market study.

AI in Information and Communications Technology Market Statistics- Current status of the AI in Information and Communications Technology industry and the key statistics for 2023 are provided in detail.

Strategic Analysis of AI in Information and Communications Technology Industry- Competitive analysis, vendor landscape, SWOT profiles, and product profiles are included.

Market Trends and Insights- The AI in Information and Communications Technology Insights report provides a detailed examination of key market trends, drivers, and their impact on demand. Further, the increasing importance of AI in Information and Communications Technology across industries is discussed.

Market Developments- Mergers, acquisitions, product launches, capacity expansion plans, and other developments announced by leading AI in Information and Communications Technology companies are included in the study.

AI in Information and Communications Technology Market Opportunities- Potential growth opportunities and quantitative comparison of different segments to provide an assessment of diverse opportunities in the industry.

Regional analysis- Further, a geographical analysis of the AI in Information and Communications Technology industry, highlighting key markets and their growth

prospects is included. The market size across six regions including North America, Asia Pacific, Europe, South America, the Middle East, and Africa is forecast to 2030.

Analytical Frameworks

The AI in Information and Communications Technology insights report uses multiple analytical frameworks for analyzing the global AI in Information and Communications Technology industry. The tools include- Industry SWOT, Porter's Five Forces Analysis, PESTLE analysis, scenario analysis, and others.

Industry SWOT- The report identifies the key strengths, weaknesses, opportunities, and threats facing the global markets in 2023 and beyond.

Scenario analysis- 4 scenarios for the long-term future based on the global economy are analyzed.

Porter's Five Forces Analysis- The report quantifies Porter's five forces analysis to assess the market attractiveness using the weighted average of the Bargaining power of buyers, Bargaining power of suppliers, Threat of substitutes, Threat of new entrants, and intensity of competitive rivalry.

PESTLE Analysis- Six segments of the general environment surrounding the AI in Information and Communications Technology industry including political, economic, social, technological, environmental, and legal factors are briefed.

Future AI in Information and Communications Technology Growth Outlook and Opportunities

The chapter provides a detailed analysis of market size, growth rate, revenue trends, and volume analysis over the historical period from 2018 up to 2022. Projection of the future growth prospects and opportunities in the AI in Information and Communications Technology industry along with insights into each of the potential market segments is included in the study. Further, the evaluation of factors driving market growth across markets is provided. In addition, the latest technological advancements and an analysis of the impact of these advancements on the performance, reliability, and efficiency of products are included.

Market Dynamics- Impact Analysis and Post-COVID Outlook of AI in Information and Communications Technology Industry

Optimistic economic conditions are observed in H2-2023 across multiple scenarios. The current edition of the AI in Information and Communications Technology Market Study identifies brighter views for 2023 and an increasingly optimistic global outlook over the forecast period.

However, the market is also constrained by challenges of geopolitical instability and conflicts with the Russia-Ukraine war and inflation conditions in the US and other markets, and rising interest rates continue to restrain the market growth prospects.

The four case scenarios considered for countries in the study are -

- Sluggish economic growth, with emphasis on savings and low expenditure

- Despite growth fluctuations, consumer confidence remains robust and gains continue for companies

- Investments in technology deployment and productive investments

- Stronger consumer demand and higher investments supporting solid growth

AI in Information and Communications Technology Market Trends- Emerging markets present strong growth prospects

According to the World Bank, over 85% of the world's population lives in the Asia Pacific, the Middle East and Africa (MEA), or South America. An increasing volume of companies are expanding their production and marketing bases to these countries as the consumption power of individuals continues to strengthen.

Several new market entrants are targeting niche economically attractive AI in Information and Communications Technology segments when expanding into these markets. We anticipate the AI in Information and Communications Technology sales growth in developing countries to continue to accelerate rapidly over the forecast period.

North America AI in Information and Communications Technology Industry: Market Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

The past few quarters have been encouraging for North American AI in Information and Communications Technology market suppliers. A large number of AI in Information and Communications Technology companies are reporting profitability after several quarters of margin declines. Focus on increasing operational efficiency, capturing niche market opportunities, and others are widely observed. The North American AI in Information and Communications Technology industry research identifies the key market trends, driving forces, and growth opportunities across 3 countries including the United States, Canada, and Mexico markets.

Europe AI in Information and Communications Technology Industry: Market Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

Leading European AI in Information and Communications Technology companies are focusing on customer orientation, sustainable supply chains, and economic value creation to succeed in long-term market conditions. As Asian manufacturers enter the European markets, the region's electronics and semiconductors sector is undergoing a paradigm shift. The European AI in Information and Communications Technology industry is also facing the significant impact of the Russia-Ukraine war. The insights report analyzes the Western European AI in Information and Communications Technology countries including Germany, France, Spain, the United Kingdom, Italy, and other European countries including Russia, Turkey, and others.

Asia Pacific AI in Information and Communications Technology Industry: Market Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

Economic growth and shifting consumer preferences are set to shape the future of the Asia Pacific AI in Information and Communications Technology industry. Leading companies in China, India, Japan, South Korea, Australia, Indonesia, South East Asia, and other regions are focusing on rapid business expansion through new product launches. The AI in Information and Communications Technology insights report provides the market size outlook across these countries from 2018 to 2030.

South America AI in Information and Communications Technology Industry: Market Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

South American countries including Brazil, Argentina, Chile, and others continue to demonstrate robust value-creation potential through 2030. Both traditional players and new start-ups are spending more on expanding products to niche consumer segments.

Increasing urbanization, infrastructure development, and improving disposable incomes are likely to drive the market outlook over the forecast period.

Middle East and Africa AI in Information and Communications Technology Industry: Market Trends, Share, Size, Growth, Opportunity and Forecast 2023-2028

The Middle East and African regions have a growing population, increasing urbanization, and improving standards of living, all of which contribute to the rising AI in Information and Communications Technology demand. Further, Sustainability and environmental concerns are gaining prominence in the GCC region. In Africa, vehicle sales continued an upward trend and the rapid growth in infrastructure in the African region enables AI in Information and Communications Technology companies to generate significant business growth in the medium to long-term future.

Competitive Insights

The landscape of the industry is shifting, moving away from traditional competition between peers and embracing new forms of competitive interactions. There is an increasing trend among companies from building products to building businesses. Companies are investing in developing new growth opportunities with market leaders increasingly focused on building and scaling up new businesses.

The AI in Information and Communications Technology insights report provides a competitive analysis of the industry in 2023. The business profiles of the leading 10 companies are profiled in the study along with their SWOT profile, financials, products and services, and market developments. In addition, an evaluation of the competitive landscape, including major players, market share, and strategies adopted by key manufacturers is provided in the research study. The report also identifies the most prominent challenges and potential growth barriers faced by leading companies.

Report scope

Data for 13 years: Historic data from 2018 to 2022 and industry forecasts from 2023 to 2030

3 Parameters- Value, Volume, and Pricing Data

6 Regions- Asia Pacific, Europe, North America, South America, Middle East, Africa

27 Countries: United States, Canada, Mexico, Germany, France, Spain, United Kingdom, Italy, Russia, Turkey, Rest of Europe, China, India, Japan, South Korea, Australia, Indonesia, South East Asia, Saudi Arabia, United Arab Emirates, Rest of Middle East, South Africa, Egypt, Rest of Africa, Brazil, Argentina, Other South America

10 Companies- Leading companies with detailed profiles

5 Models- Scenario analysis, Porter's five forces, Industry SWOT, Pricing analysis, PESTLE

8 Market Dynamics- Trends, Drivers, Growth Restraints, Opportunities

Unique Additions to the current edition-

Impact of market developments including the Russia- Ukraine War, inflation across countries, supply-chain conditions, labor-market pressures, recession, trade, and other global factors

Pricing Analysis across types, applications, and countries for 2023 and industry Forecasts to 2030

electronics and semiconductors industry trends and market forecasts

Driving forces supporting the AI in Information and Communications Technology sales in each of the 24 countries

Complimentary Excel spreadsheet and print authentication for a single-user license

Key Questions answered in this report-

1. What are the key regions in the global AI in Information and Communications Technology industry?

2. Who are the major companies or key players operating in the global AI in Information

and Communications Technology industry?

3. What has been the impact of COVID-19 on the global AI in Information and Communications Technology industry?

4. What is the projected compound annual growth rate (CAGR) of the global AI in Information and Communications Technology market size for the period 2023-2028?

5. What are the key factors driving the growth of the global AI in Information and Communications Technology industry?

6. How is the global AI in Information and Communications Technology industry segmented based on product types?

7. What are the emerging trends and opportunities in the global AI in Information and Communications Technology industry?

8. What are the challenges and obstacles faced by the global AI in Information and Communications Technology market?

9. What are the competitive landscape and strategies of global AI in Information and Communications Technology companies?

10. What are the innovations and advancements in product development within the global AI in Information and Communications Technology industry?

11. What are the strategies adopted by key players in the global AI in Information and Communications Technology market to maintain a competitive edge?

12. How is the global AI in Information and Communications Technology industry expected to evolve in terms of demand and market dynamics in the coming years?

Contents

1 FOREWORD

2 EXECUTIVE SUMMARY

- 2.1 Key Findings, 2023
- 2.2 Market Overview
- 2.3 Market Highlights

3 REPORT GUIDE

- 3.1 Study Scope and Objectives
- 3.2 Market Segmentation
- 3.3 Methodology and Sources
- 3.4 Primary and Secondary Data Sources
- 3.5 Market Estimation- Data Triangulation
- 3.6 Forecast Methodology
- 3.7 Key Assumptions

4 INTRODUCTION

- 4.1 Market Definition and Evolution
- 4.2 Historical Market Size and Trends, 2018- 2022
- 4.3 Forecast Market Size, 2023- 2030
- 4.4 Industry Value Chain Analysis
- 4.5 Porter's Five Forces Analysis

5 MARKET ASSESSMENT

- 5.1 Post-COVID-19 Growth Prospects for the AI in Information and Communications Technology Industry
- 5.2 Likely Case – Industry Forecasts
- 5.3 Optimistic Case- Industry Forecasts
- 5.4 Pessimistic Case- Industry Forecasts
- 5.5 Market Dynamics-
- 5.6 Drivers
- 5.7 Trends

5.8 Opportunities

5.9 Challenges

6 AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND APPLICATIONS

6.1 Global AI in Information and Communications Technology Growth Outlook by Type, \$ Million, 2018- 2022, 2023- 2030

6.2 Global AI in Information and Communications Technology Growth Outlook by Product, \$ Million, 2018- 2022, 2023- 2030

6.3 Global AI in Information and Communications Technology Growth Outlook by Application, \$ Million, 2018- 2022, 2023- 2030

7 NORTH AMERICA AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND APPLICATIONS

7.1 North America AI in Information and Communications Technology Industry Current Market Conditions, 2023

7.2 North America AI in Information and Communications Technology Market Trends and Opportunities

7.3 North America AI in Information and Communications Technology Growth Outlook by Type

7.4 North America AI in Information and Communications Technology Growth Outlook by Product

7.5 North America AI in Information and Communications Technology Growth Outlook by Application

7.6 North America AI in Information and Communications Technology Market Size Outlook by Country

7.7 United States AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

7.8 Canada AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

7.9 Mexico AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8 EUROPE AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND APPLICATIONS

8.1 Europe AI in Information and Communications Technology Industry Current Market

Conditions, 2023

8.2 Europe AI in Information and Communications Technology Market Trends and Opportunities

8.3 Europe AI in Information and Communications Technology Growth Outlook by Type

8.4 Europe AI in Information and Communications Technology Growth Outlook by Product

8.5 Europe AI in Information and Communications Technology Growth Outlook by Application

8.6 Europe AI in Information and Communications Technology Market Size Outlook by Country

8.7 Germany AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8.8 France AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8.9 United Kingdom AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8.10. Italy AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8.11 Spain AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

8.12 Rest of Europe AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9 ASIA PACIFIC AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND APPLICATIONS

9.1 Asia Pacific AI in Information and Communications Technology Industry Current Market Conditions, 2023

9.2 Asia Pacific AI in Information and Communications Technology Market Trends and Opportunities

9.3 Asia Pacific AI in Information and Communications Technology Growth Outlook by Type

9.4 Asia Pacific AI in Information and Communications Technology Growth Outlook by Product

9.5 Asia Pacific AI in Information and Communications Technology Growth Outlook by Application

9.6 Asia Pacific AI in Information and Communications Technology Growth Outlook by Country

9.7 China AI in Information and Communications Technology Market Size Outlook, \$

Million, 2018 to 2030

9.8 Japan AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9.9 India AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9.10. Australia AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9.11 South Korea AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9.12 South East Asia AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

9.13 Rest of Asia Pacific AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

10 SOUTH AMERICA AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND APPLICATIONS

10.1 South America AI in Information and Communications Technology Industry Current Market Conditions, 2023

10.2 South America AI in Information and Communications Technology Market Trends and Opportunities

10.3 South America AI in Information and Communications Technology Growth Outlook by Type

10.4 South America AI in Information and Communications Technology Growth Outlook by Product

10.5 South America AI in Information and Communications Technology Growth Outlook by Application

10.6 South America AI in Information and Communications Technology Growth Outlook by Country

10.7 Brazil AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

10.8 Argentina AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

10.9 Rest of South America AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

11 MIDDLE EAST AND AFRICA AI IN INFORMATION AND COMMUNICATIONS TECHNOLOGY MARKET SIZE FORECASTS- TYPES, PRODUCTS, AND

APPLICATIONS

11.1 Middle East and Africa AI in Information and Communications Technology Industry Current Market Conditions, 2023

11.2 Middle East and Africa AI in Information and Communications Technology Market Trends and Opportunities

11.3 Middle East and Africa AI in Information and Communications Technology Growth Outlook by Type

11.4 Middle East and Africa AI in Information and Communications Technology Growth Outlook by Product

11.5 Middle East and Africa AI in Information and Communications Technology Growth Outlook by Application

11.6 Middle East and Africa AI in Information and Communications Technology Growth Outlook by Country

11.7 Saudi Arabia AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

11.8 United Arab Emirates AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

11.9 South Africa AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

11.10. Rest of Middle East AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

11.11 Rest of Africa AI in Information and Communications Technology Market Size Outlook, \$ Million, 2018 to 2030

12 COMPETITIVE LANDSCAPE

12.1 Competitive Scenario

12.2 Key Players

12.3 Company Profiles of Leading 10 Companies

12.4 Company Snapshot

12.5 Business Description of Leading AI in Information and Communications Technology Companies

12.6 AI in Information and Communications Technology Companies- Products and Services

12.7 AI in Information and Communications Technology Companies- SWOT Analysis

12.8 Financial Profile

13 APPENDIX
