Abstracts

Global Albumen Powder Market Size is valued at \$941.6 Million in 2024 and is forecast to register a growth rate (CAGR) of 5.6% to reach \$1456.1 Million by 2032.

The albumen powder market is expanding as the food industry increasingly uses egg white powder for its high protein content and functional properties, such as foaming and emulsification. This market is driven by the growing demand for protein-rich, low-fat ingredients in sports nutrition, bakery, and confectionery products. With the rise of plant-based and vegan alternatives, innovations in synthetic or plant-based albumen powders could emerge as a competitive force in the market. Additionally, the demand for clean-label, allergen-free options will further shape the market.
