## Abstracts

### Introduction to Aluminum Markets in 2022

The global Aluminum market is one of the high potential growth markets in the chemicals and materials industry, with a robust market size outlook and significant unmet opportunities for companies. The Aluminum market report is a comprehensive study on the global market size outlook, key market trends, growth opportunities, market shares, potential types, and prominent end-user applications. It also provides detailed insights into countries and Aluminum companies.

### Aluminum Market Size outlook from 2020 to 2028

The study presents the latest perspectives on the coronavirus outbreak and how companies are shaping their strategies for 2022 and rest of the forecast period to 2028. Robust growth forecasts suggest opportunities for growth through the period from 2020 to 2028.

Many Aluminum companies have evolved over the past few quarters by adapting quickly to the market changes and driving performance improvements through a focus on operational efficiency. The successful Aluminum companies reshaped their portfolios and oriented themselves toward faster-growing end-user industry verticals and countries.

### Aluminum Market Dynamics- Trends, Drivers and Restraints

To assist long-term strategy formulation of companies, the Aluminum market study

presents detailed insights into the market. Market dynamics including near-term and long-term Aluminum market trends, Aluminum drivers, challenges, and potential opportunities are included.

As the global Aluminum market continues to evolve through different challenges of sustainability, demographics, geopolitical tensions, the increasing role of technology, companies must prioritize their products and formulate long-term strategies to boost revenues and EBITDA. As the revenues in the chemical industry are tied to economic development, formulating a successful strategy for chemical companies is more complicated.

The chapter assists Aluminum market players to understand global and local market dynamics to gain a strong competitive advantage to drive margins in a durable way.

#### Aluminum types- Market Shares, Analysis, and Outlook

Leading Aluminum companies are focusing on aggressive capital allocation to capture new areas of growth. To assist companies to identify leading types and achieve improved margins, the report presents an analysis and outlook of dominant market types. Each of the sub-type of Aluminum is forecast from 2020 to 2028. Further, the largest and most promising types are identified in the report.

#### Promising Aluminum applications- Market Shares, Analysis, and Outlook

The Aluminum industry remains an attractive hub of opportunities with companies ramping up sales in select end-user applications. With the growing demand in Aluminum industry verticals, capturing emerging opportunities in the near term through expansion into higher margin and growth applications is one of the key growth strategies of leading companies.

To understand different end-user applications of Aluminum and to assess the potential growth rate over the decade to 2028, the report presents the global Aluminum market size by applications and the annual growth outlook from 2020 to 2028.

#### Aluminum Market- Next pockets of growth to 2030

As leading companies orient themselves towards faster-growing markets and countries, the report presents a detailed analysis of 16 markets worldwide. To enable capturing emerging opportunities in the near term, the report presents annual forecasts of

Aluminum market size in each of these countries. The market is shifting to customer-centric solutions, and Aluminum companies are prioritizing and tapping the value-creating potential of emerging markets.

Between 2022 and 2028, the compound annual growth rate (CAGR) in emerging Aluminum markets is poised to be much higher than the global Aluminum industry market revenues, encouraging companies to tap into these opportunities to expand their profit margins.

### Analysis of leading Aluminum companies

The COVID-19 pandemic led to uncertainty, delayed investments, supply-chain changes, and increased localization. However, with the impact of the pandemic, companies are opting for ambitious cost and performance targets to achieve margin improvements. Collaboration across the value chain is identified as one of the key strategies for market development. In addition, tech-enabled, consumer-centric solutions are widely observed trends in the industry.

The report profiles the leading companies operating in global Aluminum markets and the key strategies opted by these companies to beat the competition in the intensely competitive market. Further, business profiles of the players, their SWOT analysis, product portfolios, financial profiles, and other details.

### Aluminum Market News and Developments

Recent market developments including mergers, acquisitions, new plants, capacity expansions, and other deals and news are provided in the report.

### Aluminum Market Statistics

The study presents the Aluminum market size and forecast across types, applications, and 16 countries. The currency for the report is provided in USD. Currency conversion is taken based on the average of the corresponding year.

The historical period from 2016 to 2020 is considered historical years, 2021 is the base year, and 2022 is the estimated year. Further, the forecast period is considered from 2022 to 2028.

### COVID-19 Impact and Growth Scenarios
