2020 Bullous Pemphigoid PIPELINE HIGHLIGHTS

Bullous Pemphigoid is one of the widely researched conditions during 2020 with 10 companies actively focusing on realizing pipeline's potential. Development of Bullous Pemphigoid medicines is identified as integral to the strategy of the majority of companies operating in the industry.

Global Bullous Pemphigoid market presents promising new product pipeline with NME Projects, pivotal trials, and rapidly phase-advancing therapeutic candidates. Increasing number of companies are assessing the feasibility of developing treatment options for Bullous Pemphigoid.

Good progress is anticipated during 2020 and 2021 with Bullous Pemphigoid pipeline molecules advancing from pre-clinical investigation to completion of advanced Phase clinical trials. Bullous Pemphigoid pipeline continues to expand and progress with novel mechanisms and diverse routes of administration being tested by companies.

Bullous Pemphigoid DRUG DEVELOPMENT PIPELINE OVERVIEW

The "Bullous Pemphigoid pipeline Research Monitor, 2020" report is an analytical research study on the progress achieved by pipeline companies during the year along with its historical development, current status, and outlook.

This Bullous Pemphigoid pipeline review explores high-potential early to late-stage pipeline projects with a continued focus on new insights, accelerated processes, and pipeline progression.

The competitive intelligence report on Bullous Pemphigoid presents detailed insights into therapeutic drug pipeline development, industry news, deals, and analysis across the length and breadth of the Bullous Pemphigoid pipeline. Information on R&D pipeline

updates, results of key clinical trials are also included in the report.

Bullous Pemphigoid DRUG PROFILES

Bullous Pemphigoid development pipeline including projects in early- and late-stage development are detailed in the report. Details of clinical trial data and submissions to regulatory authorities are also provided. For the drug candidates included in the report, the following information is provided-

Current Status of Development including phase advancements, regulatory approvals of phases, acquisitions, licensing and technology transfers, product launches in various markets, and others.

Phase of development

Mechanism of Action

Route of Administration

Companies involved including originator, licensing companies, developer, investors, and others

New molecular entity details

Orphan drug designation and other special status provided by regulators

Bullous Pemphigoid COMPANY PROFILES

Both small size and large size pharmaceutical companies are investing their resources in Bullous Pemphigoid drug development operations. Further, financial institutions are extending support to small pharmaceutical companies, universities, and other researchers for the development of treatment of Bullous Pemphigoid. Partnerships and acquisitions are also increasingly observed in the pipeline.

This research report presents an analysis of 10 Bullous Pemphigoid companies including company overview, key snapshot, contact information, and their strategies on accelerating Bullous Pemphigoid pipeline development. Mid-stage and early portfolios of these companies are analyzed in detail in the report.

Companies analyzed in the report include- Akari Therapeutics Plc, Alkahest Inc, Amgen

Inc, Eli Lilly and Co, Genzyme Corp, iCo Therapeutics Inc, Immungenetics AG, Regeneron Pharmaceuticals Inc, Sangamo Therapeutics Inc, viDA Therapeutics Inc

REASONS TO BUY

The current market conditions are forcing companies and investors worldwide to prioritize their investments and accelerate pipeline candidates only through careful quantitative assessment.

This research work assists decision makers in pharmaceutical companies towards successful pipeline development through critically evaluated pipeline data

Buyers can identify most promising drug candidates for treatment of Bullous Pemphigoid

It allows users to strengthen their pipeline through acquisitions, licensing and collaborations

Users can estimate possible delays in the delivery of pipeline or launch of new products

Stay ahead of competition through understanding their pipeline progression, strategies and outlook

The report details all the pipeline candidates under investigation in various stages of development from Phase I through to Phase III to enable business development managers to understand the impact of new launches.

Optimize your licensing and technology transfer strategies through identification of prospect partners

Contents

1. INTRODUCTION TO BULLOUS PEMPHIGOID

- 1.1 Bullous Pemphigoid- Disease overview
- 1.2 Bullous Pemphigoid- Market Size
- 1.3 Bullous Pemphigoid- Companies Involved

2. BULLOUS PEMPHIGOID PIPELINE SNAPSHOT- 2020

- 2.1 Bullous Pemphigoid Pipeline by Phase
- 2.2 Bullous Pemphigoid Pipeline by Mechanism of Action
- 2.3 Bullous Pemphigoid Pipeline by Route of Administration
- 2.4 Bullous Pemphigoid Pipeline- New Molecular Entities
- 2.5 Bullous Pemphigoid Pipeline- Orphan Drug Designation/ Special Designation

3. BULLOUS PEMPHIGOID DRUG PROFILES

- 3.1 Current Status
- 3.2 Bullous Pemphigoid Drug Snapshot
- 3.3 Bullous Pemphigoid Therapeutic Candidates- Originator/Licensors
- 3.4 Route of Administration
- 3.5 Mechanism of Action
- 3.6 NME
- 4.1 Akari Therapeutics Plc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.2 Alkahest Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.3 Amgen Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.4 Eli Lilly and Co Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.5 Genzyme Corp Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.6 iCo Therapeutics Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.7 Immugenetics AG Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.8 Regeneron Pharmaceuticals Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.9 Sangamo Therapeutics Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials
- 4.10 viDA Therapeutics Inc Bullous Pemphigoid Pipeline Insights and Clinical Trials

5. BULLOUS PEMPHIGOID MARKET NEWS AND UPDATES

6. APPENDIX

6.1 Sources and Methodology

6.2 Contact Information
