Abstracts

In this year's "Cannabis Market Size Outlook and Opportunities in the post-pandemic world- Global Cannabis Industry Trends, Growth Strategies, Market Shares, Companies, and Forecasts for countries" report, we examine the growth opportunities in the Cannabis industry from 2022 to 2030 and key strategies for companies to boost their market shares. The Cannabis market report highlights opportunities available in the post-pandemic era and how companies might be able to achieve them.

Cannabis Market Overview, 2022

The global Cannabis market is identified as one of the high prospect markets in the post-pandemic future. Consumers across the income spectrums are exhibiting strong optimism and spending, driving up Cannabis sales in 2022. In particular, the year 2022 is enabling Cannabis companies to widen their product portfolio as increasing consumer demand is observed across developed and developing markets.

Global Cannabis Market Segment Analysis and Outlook

The report analyzes the global and regional Cannabis markets across diverse segments to present insights into the most potential categories. To enable readers to understand most potential segments for investment in the long-term and short-term future across different markets, the report presents the Cannabis market analysis by types, Cannabis market analysis by applications, Cannabis market outlook by end-user, and Cannabis market outlook by geography.

Global Cannabis Market Trends, Drivers, Challenges, and Opportunities

Top Cannabis Market Trends for the next ten years to 2030- The global Cannabis market is undergoing a period of unprecedented demand and interest with consumption patterns evolving rapidly by geography. As companies aim for creating value through long-term strategy, the report presents a detailed analysis of short-term and long-term trends set to shape the future of the global Cannabis markets.

Key Market Drivers shaping the future of Cannabis Markets- To enable companies to unlock new avenues for sustainable profitable growth, the report presents detailed insights into the key driving forces shaping the future of the global Cannabis industry.

Further, recent industry changes illustrate the growth in Cannabis that has brought disruption. To stay at the forefront of the industry, understanding these challenges and overcoming them remains vital. The report identifies the current challenges and needs in the Cannabis markets.

Cannabis Market Size Outlook in Post-COVID-19: Implications for Companies

The report analyzes the changes in the industry brought about by the COVID-19 Pandemic and presents the Cannabis market outlook across three case scenarios.

The majority of the Cannabis companies reacted to COVID-19 through disciplined cost management, improving operational efficiency, product innovation, brand building, digitalization, and sustainability initiatives. Robust mitigation and adaptation plan to improve supply chain resilience were widely observed.

With a robust market outlook from 2022 to 2030, companies are focusing on scaling direct access to consumers and investing in personalization in their marketing activities to achieve greater engagement and loyalty.

Further, the long-term Cannabis market size outlook also considers the impact of the Russia-Ukraine war, possible looming global recession, trade issues between the US and China, the possibility of new virus variants, and other conditions.

North America Cannabis Market Size and Market Share Outlook to 2030

The report analyzes the current status and North American Cannabis market outlook to 2030. Leading market types, applications, and potential countries in North America are analyzed in the report. Further, the Cannabis market size forecasts are provided for the United States (the US), Canada, and Mexico countries in the report.

Europe Cannabis Market Size and Market Share Outlook to 2030

Western European countries of Germany, France, Spain, the United Kingdom (the UK), and Italy contribute significantly to the global Cannabis market size in 2022. In addition, the Rest of the Europe countries also present a robust growth outlook with improving macroeconomic conditions, and companies expanding their operations in these countries.

Asia Pacific Cannabis Market Size and Market Share Outlook to 2030

Emerging countries in the Asia Pacific remain the most potential growth markets for companies planning business expansions. Rapid urbanization, increasing disposable incomes, consumer spending increases, and the launch of new products shape the future of Cannabis markets in Asia Pacific countries. The report analyzes China, India, Japan, and South Korea markets and the Rest of Asia Pacific countries including their market size in 2022 and forecast to 2030.

The Middle East and Africa Cannabis Market Size and Market Share Outlook to 2030

The landscape of the Middle East economy is shifting as consumer preferences continue to emerge. The Cannabis report assesses the potential market size of the Middle East market and its growth outlook to 2030. Among countries, Saudi Arabia, United Arab Emirates (The UAE), and other Middle East markets are analyzed in the report.

The Africa Cannabis industry continues to offer exciting opportunities to build large, profitable businesses for companies launching products to cater to domestic consumers. The report presents the current status and outlook of Egypt, South Africa, and other countries through 2030.

Leading Cannabis Company Profiles and Business Strategies

Emerging Cannabis market competition is increasing as more companies are strengthening their operations and targeting wide customer segments. As companies can gain an advantage from anticipating their competitors' strategic moves, the Cannabis report presents key insights into competitor profiles, their strategies, product profiles, financial profiles, and other information.

Critical Success Factors such as innovating new products, delivering innovations quickly, and scaling them across brands, categories, and geographies, using data and technology to unlock efficiencies and growth opportunities are widely observed in the Cannabis industry.

The Cannabis market intelligence report analyzes the leading five companies in the

industry. We analyze over 15 companies but present the five players in the multi-client study. Customers can opt for free customization by requesting their preferred competitor profiles.

Contents

1. TABLE OF CONTENTS
